September 18-19, 2007

Presentation Framework

What problem are we trying to solve?
What are the current objectives of the TCR?
Are these objectives still appropriate?

To what extent do the provisions of the existing regulation, as enforced, address the objectives?

Presentation Framework

How well do systems comply with provisions of the rule that are meaningfully linked to the objectives?

How do we improve upon the elements of the rule to meet the objectives at a reasonable cost?

What else do we need to learn?
