OFFICE OF
PREVENTION, PESTICIDES AND
TOXIC SUBSTANCES

**MEMORANDUM**

**SUBJECT:** Final Registration Review Work Plan for the Herbicide Sulfosate (Registration Review Case 7202, PC Code128501)

**FROM:** Dirk Helder
Office of Pesticide Programs
Reregistration Branch 2
Special Review & Reregistration Division (7508-P)

**TO:** Sulfosate Docket
Office of Pesticide Programs
Special Review & Reregistration Division (7508-P)

This memo serves as documentation of the final work plan to achieve cancellation of registered products and revocation of all tolerances for the herbicide sulfosate (PC Code 128501). As part of the registration review of the herbicide sulfosate, the Special Review & Reregistration Division (SRRD) confirmed that all registered products have been canceled and all tolerances will be revoked. For this reason, a registration review docket was not opened for this pesticide. The technical registrant has not distributed or sold products containing sulfosate since November 2003. All sulfosate registered products were canceled on October 15, 2004 due to non-payment of registration maintenance fees, and a notice was published in the Federal Register on October 27, 2004 titled "Cancellation of pesticides for Non-payment of Year 2004 Maintenance Fees" (69 FR 62666-62678): Touchdown Concentrate (100-1041), Touchdown 5 Herbicide (100-1108), Touchdown 4 LC (100-1042), Touchdown Technical (100-1047), and Touchdown (R) 6 Herbicide (100-1048). Therefore, the tolerances are no longer needed. The technical registrant requested voluntary revocation of all existing tolerances, including the import tolerance on bananas on November 1, 2006. On May 2, 2007 a notice was published in the Federal Register (FR 72 24198-24213) proposing to revoke all sulfosate tolerances in 40 CFR 180.489. The 60-day public comment period on the proposal ended on July 2, 2007. No comments were received and the Agency anticipates revoking all sulfosate tolerances in 2007. Sulfosate will be removed from the registration review schedule once the tolerances are revoked.
