Manufacturer: Silgan Plastics Corporation
Model: 28MM-410 CR Dispensing Nozzle Closure
ASTM Type: IIIG

Description:

This is a one piece plastic snap closure with a dispensing spout (blue closure and white dispensing spout in Figure 1).

Figure 1

The snap closure is permanently attached to the container by continuous threading and matching ratchets on the closure and container (see arrow to ratchets on the closure and the bottle in Figures 2 A and B).

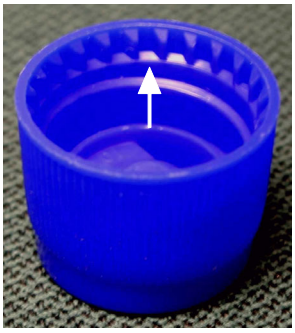

Figure 2A

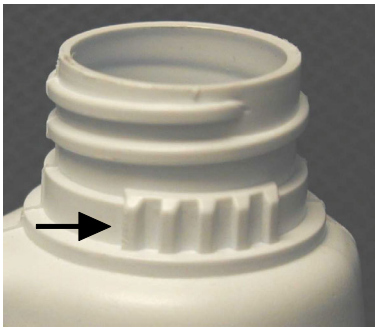

Figure 2B

The closure is opened by pushing down on a groove in the spout using a fingernail, coin or other tool and then lifting the spout up (see arrow to spout groove in Figure 3A).
