US Environmental Protection Agency (EPA) Data.gov Inventory

As of June 25, 2010

The purpose of this inventory is to provide the public with information on data sets that are currently on Data.gov as well as those EPA has committed to post on Data.gov.
The information on this page describes the contents of the inventory.

Column(s)	Title	Explanation/Definition
A	Data.gov Data Set ID and Link	This is the ID n This is the ID number assigned within EPA's Data.gov repository and the link to Data.gov
B	Data Set Name (or Grouping)	Name of the d Name of the data set (or collection/grouping of like data sets)
C	Brief Description (and link to additional data set	Short descript Short description of the data set and additional on-line information if available
D	System Information in EPA's Registry for EPA Applications, Models and Datasets (READ)	READ record t that provides information about the data set including: linked/related data sets, longer description, access rights, subsystems, technologies used, and enterprise architecture information.
E to G	Source/ Suggested by?	Indicates the source that identified the data set to be made public; values include: – Public or EPA Partner Suggestion – EPA-Initiated – Congressionally Mandated
H	# of Active Data sets	Indicates the r number of data sets active in Data.gov under this category (i.e. TRI data for a given year has a separate data set for each state/territory)
I to P	Key Audience(s)	Identifies the key audiences targeted or that will benefit from this data set; values include: – Public/Communities – Non-Government Organizations (NGOs) – Industry – Federal Agencies – States and Tribes – Local Government – Scientists – Congress
Q	Collaboration with Other Federal Agencies	If the data set is a result of collaboration with another Federal agency, name the agency
R to X	Mission-Related Priorities	Cites the Agency mission priorities that the data set supports; values include: – Climate Change Action – Air Quality Improvement – Community Clean Up – Chemical Safety Assurance – US Water Protection – Env. Justice/Environmentalism – Strong State/Tribal Partnerships
Y	Sponsoring EPA Office(s)	Provides the EPA main offices and regions that sponsor the data set
Z to AD	Type of High-Value Information	Cites the category of high-value information the data set provides – Increases Agency Accountability/Responsiveness – Improves Public Knowledge of Agency/Operations – Furthers Agency Core Mission – Creates Economic Opportunity – Responds to Need/Demand from Public Consultation
