---

Dear Chairman Lewis,

I want to introduce myself and let you know that I look forward to meeting you and continuing the collaborative relationship between the Yakama Tribe and the Region 10 Air program. I am also notifying you that EPA Region 10 is opening the public comment period for the draft title V air permit for Yakama Forest Products. My colleague Davis Zhen reached out to you on July 3, 2025, to notify you of the opportunity for consultation. The public notice associated with the proposed action is attached along with the draft permit and statement of basis. The entire administrative record is available online starting August 13, 2025. Go to https://www.epa.gov/caa-permitting/caa-permitting-epas-pacific-northwest-region and click on the link associated with the Yakama Forest Products draft permit under the public comment opportunities. The public comment period for the proposed action closes on September 12, 2025. We are hopeful to be able to address comments after the comment period and issue a final permit that reflects successful operations at the facility in full compliance with Clean Air Act requirements.

Please let me know if you have any questions. Thank you.

Very Respectfully,

Angeles Herrera, Director
Air and Radiation Division
