Re: Regional Climate Pollution Reduction Grant Application Letter of Intent

Dear Ms. Padilla,

On behalf of the City of City of Sunnyvale, I am submitting this letter to serve as notice of our intent to sign the Memorandum of Agreement (MOA) with the coalition of entities in the San Jose-Sunnyvale-Santa Clara, CA Metropolitan Statistical Area, led by Silicon Valley Clean Energy, that is submitting an implementation project application to the Environmental Protection Agency (EPA) Climate Pollution Reduction Grant (CPRG) program for the Public Facilities Resiliency Implementation Project. The MOA will describe the roles and responsibilities of each coalition member in implementing the proposed greenhouse gas reduction measures, including related equity analysis, performance evaluation, community engagement and workforce development activities, and fulfilling all reporting requirements as described in the CPRG application.

The Public Facilities Resiliency Implementation Project will support the electrification of two critical facilities within Sunnyvale, Fire Station 2 and the Cleanwater Center. Electrification of these facilities support Sunnyvale policies:

- Climate Action Playbook, Play 2.2 Support electrification of existing buildings.
- General Plan Policy LT-2.2 reduce greenhouse gas emissions that affect climate and the environment though land use and transportation planning and development.

I am authorized to sign on behalf of the City of Sunnyvale and to bind the City of Sunnyvale to the MOA, if and when the coalition is awarded the funds.

Sincerely,

Kent Steffens

Kent Steffens
Sunnyvale City Manager
