04 REC file

RECORD OF ENVIRONMENTAL CONSIDERATION
tiered off existing NEPA Document

1. **Proponent**: U.S. Army Garrison, Huachuca City and the USPP

2. **Project Description:** Construct approximately 40,000 feet of main sewer pipeline which will be pressurized and pumped up gradient with 3 lift stations between the fort's boundary with Huachuca City and the Fort's WWTP on Brainard Road. This project will convey up to 220 acre feet per year of effluent from Huachuca City, and eventually from future development around the LAAF/Sierra Vista Municipal Airport, to the Fort Huachuca WWTP for treatment and reuse or aquifer recharge on Fort Huachuca.

3. Anticipated **date(s) and/or duration** of proposed action: 2008 or sooner

4. **This Record of Environmental Consideration is to document that the action has been reviewed and conforms with the action and analysis documented under the provisions of AR 200-2 (32 CFR 651.10) in the Environmental Assessments entitled: Artificial Aquifer Recharge and Treated Effluent Management, Fort Huachuca, AZ, July 2000.**

No additional circumstances exist, and the EA remains adequate. Therefore, in accordance with AR 200-2, 32 CFR 651.10, a Record of Environmental Consideration is appropriate in this case because the proposed action is adequately covered within the aforementioned NEPA Document.

5. This REC does not constitute compliance with statutes other than the National Environmental Policy Act (NEPA) of 1969 or replace any other required permits or licenses. If changes are made to the proposed action, it is the proponent's responsibility to ensure that the new proposed action is reconsidered under NEPA.
