Subject 56th ITC Listing of CAS# 20227-53-6 and CAS# 63302-49-8

Dear Mr. Walker,

I am sending this e-mail to confirm that Noveon, Inc (Noveon) has discontinued the manufacture of CAS# 20227-53-6 and CAS# 63302-49-8 which appear on the 56th ITC List. To our knowledge Noveon was the only manufacturer of these chemicals. Therefore, these chemicals should be removed from the 56th ITC List.

Copies of previous communications with EPA are attached.

Sincerely,

Robert K. Hinderer

**Re: Rubber and Plastics Additives (RAPA) Panel
HPV Chemical Challenge Program (Program)
Changes in Chemicals Sponsored by the RAPA Panel**

Dear Mr. Leavitt:

On November 22, 1999, the RAPA Panel (Panel) of the American Chemistry Council volunteered to serve as an industry consortium under the Program. Additional correspondence concerning the RAPA Panel's commitments were submitted on December 30, 1999, February 1, 2000, November 5, 2001, November 7, 2001, December 18, 2001, December 20, 2002 and July 3, 2003. By this letter, the RAPA Panel informs EPA of changes in the Panel's commitment to sponsor two chemicals. Members of the RAPA Panel HPV consortium include: Alco Chemicals; Bayer Polymers LLC; Ciba Specialty Chemicals Corporation; Crompton Corporation; Eliokem, Inc.; Flexsys America L.P.; The Goodyear Tire & Rubber Company; The Lubrizol Corporation; Noveon, Inc.; and R.T. Vanderbilt Company, Inc.

Table 1, attached, lists the 37 chemicals sponsored in the Program by the Panel as of July 2003. As explained in two letters from Noveon, Inc. to the Program, both dated December 29, 2003, Noveon, Inc. is discontinuing the manufacture and sponsorship of two chemicals:

- Phosphorous acid, 2-tert-butyl-.alpha.-(3-tert-butyl-4-hydroxyphenyl)-p-cumenyl bis(p-nonylphenyl) ester (CAS number 20227-53-6), and
- Phosphorochloridous acid, bis(4-nonylphenyl) ester (CAS number 63302-49-8).

With this development, these two chemicals are no longer produced by any Panel member company and will no longer be sponsored in the Program by the Panel.

Table 2, attached, contains the list of Panel-sponsored chemicals, revised to reflect the final list of 35 chemicals sponsored in the Program by the Panel. Test plans and robust summaries have been submitted to the Program for the 35 chemicals sponsored by the RAPA Panel, and revised submissions have been made for many categories and chemicals. Comments received from EPA and the public so far have generally agreed that the RAPA chemicals have a

robust set of existing data, reflecting the high level of understanding of potential hazards. In a few instances, the Panel agrees with EPA or other commenters that collection of additional data is warranted to address Program requirements. The Panel plans to collect these data and submit the results to the Program.

If you require additional information, please contact the RAPA Panel's technical contact, Dr. Anne P. LeHuray at (703) 741-5630 or anne_lehuray@americanchemistry.com.

Sincerely yours,

Courtney M. Price

Dear Mr. Leavitt:

Noveon, Inc. (Noveon) is withdrawing its support for CAS# 20227-53-6, phosphorous acid, 2-tert-butyl-.alpha.-(3-tert-butyl-4-hydroxyphenyl)-p-cumenyl bis(p-nonylphenyl)ester, which is part of the ACC Rubber & Plastic Additives (RAPA) Panel under the HPV Challenge Program. Noveon, Inc. is discontinuing the manufacture of this chemical.

Noveon will continue to support the other chemicals that it sponsoring under the EPA HPV Challenge Program as noted in the May 29, 2001 letter to Ms. Christine Todd Whitman.

Sincerely,

Kennth J. Willings
