1	87/04/16	Record of phone call to Dave Homer of FRC Environmental. His only concern after reviewing the data on the slag sample from the north of Midco I is the leachability of the PAH's from the slag into the PAH's in the pond. However, he does not think that additional sampling is needed.	Rich Boice-USEPA		Communication Record	1
1	85/11/14	Recommendation that one 90-foot monitoring wells be installed on the north of the site to determine if a deep sand aquifer is present.	Rich Boice-USEPA	Reobert Aten-USEPA	Correspondence	2
1	86/03/13	Arrangements are being made to have 60 yards of clay delivered to the site for placement on top of the test pit locations.	Robert Aten-Geosciences	Rich Boice-USEPA	Correspondence	1
2	86/04/07	Confirmation that the USEPA and the DOJ have no objections to placing a fence and gate along the west side of Blaine St. and repairing the existing fence on the other three sides of the site.	Robert Aten-Geosciences	Rich Boice-USEPA	Correspondence	4
1	86/04/11	Revised schedules for deliverables.	Robert Aten - Geosciences	Rich Boice-USEPA	Correspondence	5
1	86/05/16	Pgase II groundwater samples collected for metal analysis will be filtered.	Robert Aten-Geosciences	Rich Boice-USEPA	Correspondence	6
