To whom it may concern,
I'm writing you in regard to the Draft Title VI, I'm just answing the best way I know how., In Concern to this Site Purity Oil in Malaga Ca. In the San Joquin. Valley. This Site was allowed to expose people to there toxics. And this goes back to the 1970's when the State Knew what was buried in those grounds and did nothing to remove the Families in Tall Tree Trailer Courts that set next to this site, in fact right under there homes, it leaked in there yards and there children played on this Killing Field of Nuclear By Products with No Knowlege that it would affect them for the rest of there lifes. This Concerned me for this Mexican Family's that first set on this site in the 80's when they came in on this Super Fund and started to clean this mess, digging 11,800 truck loads of this Nuclear dirt By Products and exposing us all to there air Borne Dust and those Families to this night mare and they Knew nothing. They Knew

no English and were told nothing to the danger, to me it made no sence, When in the 80's the Engineer on this site Said to move these Familys it was to dangerous for them, And they did nothing, Knowing this Familys were getting ill, And did nothing, and now its the year "2000" and now they have Indians on this site. I came to H.B.L.A. in "1996" and Blew a whistle at them about this site. and how could they still have more Familys Being exposed and they don't even Know it. Again more Familys who Can't Speak or even Read For that matter in English and our town allowing it. Fresno and they Knew to cause there the one's who allowed P.G.E to Dump there transformer Oil in there with no permitto. along with our town's leftover's in there our Back yards and allowing everyone's Elers to Buried there to, They now have a Water Injection Tower on this site to Clean the tanks that sit under the store that sits on this site and it sells Food to this Poor Mexican and Indians on this site. and this tanks are Volatory

3. This is not right. They have had some Fires out there that has Burned for days and was toxic Fumes they had to Evacuate the whole town of Malaga until the Fire was out. This happened more than once, They have alarms on the Fence lines around the trailer's for high toxic warning And some where on this Site they have a Incinerator Burning this stuff. which I know its Better not to transport this toxic around to other sites its to much exposure too other's, But this Family's are exposed Daily to it how can they let this happen to this Indians who can't even under stand Spanish or English, there Language is different it's in there back yards, and they didn't know it, Until a few year's ago when H.R.L.A. listen to my plea's and now have a promise to move them Trailer's off this Site and relocate the Family my writing to you is to ask you to watch that this happens. I see the Family in the 80's its to late most have moved or

passed on and I mean Died
This Site was allowed to Kill off
alot of Mexicans in this town
with Cancer's my Step Uncled lived
on this Site he Died with Cancer
of the Heart, Rare he's a white man
though Cancer has no Race, I'm
Sure if you check the town out you
will see the high Cancer Rate for this
town, along with all the Retards,
They have there own school Just
for what the Site Created after 25 yr's of
ignoring this Family on this Site
I often Believed they were the
States Junior P. of Just watching
this Family Die, Strong Huh I'm
Sorry, I have alot of hate For this
Site, I got ill, from some
of there nuclear waste it Cut my
life in half and my generation,
my Daughter also, and I've Buried
a Grand daughter for this Site,
So if you See fit I would like
to see that they Follow Through
They've lied For year's, So there's no
promises Kept for this Family
They need to Ful Fill it and get
on to there water Trouble, For
