Duwamish River SI: Reach C/D Exceedances of Hexachlorobenzene in Subsurface Sediment

Map 4-35c/d

Notes:

1) Top posted values are TOC-normalized concentrations. The first value is for 0 - 2 feet depths and the second value is for 2 - 4 feet depths. Lower posted values are Dry-weight concentrations.
2) Units are in ug/kg.
3) Standard value is listed in () in Symbol Explanation.

SCALE 1:10500

250 0 250 500 750 1000

Feet

Symbol Explanation

TOCN Non-Detect	Dry-weight Non-Detect
Below SQS (380)	Below LAET (22)
Above SQS and Below CSL	Above LAET and Below 2LAET
Above CSL (2300)	Above 2LAET (70)
