Per Section I.C.2 of the NPDES Permit Number AKG-28-8100, the NOI application package should include applicable environmental reports and documents. Shell provided a CD to EPA on May 29, 2014 containing several scientific documents, which are applicable to the NOI applications contained in the enclosed submittal package and which are referenced in the attached documents (i.e. EMP).

Additionally, other related environmental reports and documents (which are currently in draft or being processed by the authorizing agencies) will be provided upon finalization from the applicable agencies. These documents include but are not limited to, Shell EP, Incidental Harassment Authorization, and USFWS Letter of Authorization.
