Subject: Pre-Draft Part 71 Permit - Neucor Incorporated
Attachments: Neucor P71 Permit 2026 _ 7.10.26.docx; Neucor P71 SoB 2026 _ 7.10.26.docx

The EPA, Region 10 is sharing the pre-draft part 71 (title V) operating permit and associated statement of basis for Neucor, Incorporated in White Swan, Washington on the Yakama Nation. The purpose of sharing the pre-draft permit and statement of basis is to allow the company and Tribal environmental staff to review the documents for factual accuracy. There will be a public review period in the near future when you may make substantial comments on the content of the permit.

Any correspondence related to these documents will become part of the administrative record and shared with the public at the time of the public review period.

Our Regional Administrator has directed us to issue a final permit by the end of the fiscal year (i.e., September 30, 2026). With that in mind, we intend to open the public review period during the second week in August. Therefore, if you have any clarifying comments to make on these pre-draft documents, please let us know within two weeks, by the end of the day on Wednesday, August 5.

You may request to meet with us at any time to discuss this permit or any EPA matters that impact you.

Thank you
