Public Notice: EPA Region 10 proposes to issue an Air Quality Permit to Operate for Neucor, Incorporated on the Yakama Reservation

EPA Region 10 is proposing to issue an initial air quality permit to operate for Neucor, Incorporated located on the Yakama Reservation. As required in 40CFR 71.11(a)(5) and 71.8, all draft operating permits must be publicly noticed and made available for public comment. EPA invites the public to submit written comments on this proposed permit through the process described in attached notice below.

- Neucor Draft Statement of Basis (pdf) <https://www.epa.gov/system/files/documents/2026-08/draft-neucor-p71-sob.pdf> (680 KB)
- Neucor Draft Administrative Record (pdf) <https://www.epa.gov/system/files/documents/2026-08/20260813-neucor-p71-draft-administrative-record.pdf> (21.91 MB)
    - To access the features of the administrative record, follow the below instructions:
        1. Ensure you have Adobe Acrobat installed, as PDF portfolios require this software to open correctly. If you do not have Adobe Acrobat installed, you can download it from the Adobe website.
        2. Download the desired PDF Portfolio from the browser.
        3. Navigate to the folder where you downloaded the PDF portfolio.
        4. Right-click on the PDF file and select "Open with" from the context menu, then choose "Adobe Acrobat Reader" or "Adobe Acrobat DC."
        5. Once opened in Adobe Acrobat, you should see the portfolio interface, which might include a list of files, documents, or multimedia elements contained within the portfolio. Please double click the folders in the panel in order to access the documents in each folder.
