Re: Petition for 3 Years Extension of Exclusive Data Use for Prothioconazole (EPA Reg. No. 264-824

Dear Mr. Kish:

Bayer CropScience hereby respectfully petitions EPA to extend the period of exclusive data use for Prothioconazole fungicide by 3 years, by applying the provision listed under FIFRA Section 3(c)(1)(F)(ii).

Bayer CropScience believes that Prothioconazole meets the criteria required for this provision based on currently registered uses on minor crops including: watermelon, summer squash, cucumber, cantaloupe, pumpkin, lowbush blueberry, cranberry, currant, gooseberry, loblolly pine, slash pine, longleaf pine, hardwoods, chickpea, crambe, buckwheat, and popcorn thus qualifying for the maximum of 3 additional years of data exclusivity. Justification for how Prothioconazole meets the criteria requirements are detailed in the following petition, enclosed herein:

Guideline	Study
SUPP	Prothioconazole Minor Use Registrations Petition for 3 Years Extension of Exclusive Use Data Protection Provided Under FIFRA Section 3(c)(1)(F)(ii); G. Musson, M. Schwarz, J. Fajardo and R. Myers, Bayer Study No. US0423

We have determined that the proper PRIA code for this submission is R277. A check in the amount of $5,250 has been sent to the Agency's St. Louis fee for service box. A photocopy of the check is enclosed.

If you have any questions or need additional information, please contact me by phone at (919) 549-2631 or by e-mail at jessica.fernandez@bayer.com.

Sincerely,

Jessica Fernandez
Registration Manager
