

SUBMITTING PHOTOGRAPHS TO THE LAND REVITALIZATION PHOTO INVENTORY

Dickinson, North Dakota

Jekyll Island, Georgia

St. Louis, Missouri

How to Submit Photographs to the Photo Inventory:

Send hard copy photographs or CDs to:

Mark Vogelgesang
SRA International
3434 Washington Blvd., Room 5003
Arlington, VA 22201

If applicable, original photographs, negatives, and slides will be promptly returned.

Send digital copies to:

BF_photos@sra.com

Photographs are used to visually highlight a project in various communication materials including success stories, brochures, fact sheets, exhibit booths, posters, and web photograph galleries, as well as many other products.

Provide the Following Information for Each Photograph Submitted:

Please complete and return the accompanying submission form with your photos so that your images are appropriately referenced when used. On the submission form, please verify that EPA and SRA have permission to use these photos for EPA communications materials. Please note any usage restrictions, or copyright/credit information for each photo.

Tips for Usable Photograph Quality:

To ensure that your photographs are of the highest usable quality, please follow these guidelines:

- Use a digital camera on its highest resolution setting (3 megapixels +) *or* use a film camera.
- Send original prints or negatives directly to SRA for scanning and uploading, *or*
- Scan photographs at 300 dpi and save as ".tif," or save digital images at the highest resolution possible as ".tif" or high-resolution ".jpg." Please **do not** use the formats ".gif," low-resolution ".jpg," or photographs embedded in documents, as the resolution will be too low.
- When photographing "before," "during," and "after" images at a site, shoot a few images of each phase from the same vantage point to best showcase the property's transformation.
- Note the date the photograph was taken.

If You Have Any Questions:

Call Mark Vogelgesang at (703) 284-3206 or email: BF_photos@sra.com
