

# Emission Inventory System Reports Course

Sally Dombrowski

[dombrowski.sally@epa.gov](mailto:dombrowski.sally@epa.gov)

919-541-3269

# Types of Reports

- **Feedback Reports**
  - First line of QA on your submission
- **Snapshot**
  - CERs xml format
  - Done separately for the various data categories
  - Requires use of the Bridge Tool to convert
  - Replica of the staging tables
  - Can only be run on a single agency emissions data set and not the general purpose release.
- **Emissions Summaries**
  - Summarized data at geographic or facility level
  - Can be run on both the responsible agency and the general purpose release.
- **Agency Submission History Report**
  - Excellent QA tool for point and nonpoint
    - Have you reported all of the facilities which you should report for?
    - Have you reported all of your SCCs for nonpoint
- **Facility Configuration Reports**
  - CSV format
  - Can be imported into Excel or Access as a text file
  - Flat files by Regulations, Process/Unit, Release Point, Facility, Alternative Identifiers and Controls
  - No emissions

# Feedback Reports

- QA and Production
- Statistics worksheet is very important to review
  - Do the number of records match the records you are submitting
  - Does the number of emission process match the number of reporting periods
  - Do you have a very large number of facility, unit and process changes when submitting a batch upload for the facility inventory
  - Recommend noting the number of records in each file and the CDX identifier when the file is submitted.
- Critical and Warning Errors
- [Sample Feedback Report](#)

# Snapshots – Facility

The screenshot shows the EPA EIS System Web Reports page. The browser address bar displays <https://eis.epa.gov/eis-system-web/reports/>. The page is organized into several sections:

- VIEW/ADD/EDIT**
  - » Facility Inventory and Point Emissions
  - » Potential Duplicate Facilities
  - » Nonpoint/ Onroad/ Nonroad Emissions
  - » Event Emissions
  - » NCD Activity Data
- REPORTS** (highlighted with a red circle)
  - » Request Reports (highlighted with a red circle)
  - » Report Downloads
  - » Large File Download
  - » Feedback Reports
  - » Agency Submission History Report
- REFERENCE DATA**
  - » Reporting Code Tables
  - » QA Checks
  - » EIS Bridge
- SUPPORT**
  - » View All Announcements
  - » View Support Requests
  - » Create Support Request
- ACCOUNT DATA**
  - » My Account

The main content area is titled "Request Reports" and contains several expandable sections:

- Facility Snapshot**

All Facility Inventory data elements in CERS XML format. Snapshot updates can be requested and will be generated overnight.

Report Name	Report Description
<a href="#">By Responsible Agency</a>	All facilities within a single S/L/T Agency's jurisdiction are included, whether added to EIS by the S/L/T or by EPA. Both EIS and S/L/T Agency identifiers are provided.
- Facility Configuration Reports**

Facility Inventory data elements at various levels of detail in a flat file CSV format. Can filter by a variety of criteria depending on level of detail requested. Requests run every 15 minutes.

Report Name	Report Description
<a href="#">Facility Configuration</a>	7 reports providing details of different aspects of the Facility Configurations, across all Agencies, filterable by geography, NAICS, Facility Type, Oper Status or Reg Code. Only EIS identifiers provided.
- Emissions Snapshot**

All Emissions data elements in CERS XML format for Point, Nonpoint, Onroad, Nonroad, or Event emissions. Can be run for either S/L/T Agency reported emissions or for USEPA emissions datasets. Data is returned at Process ID or SCC level detail. Snapshot updates can be requested and will be generated overnight.

Report Name	Report Description
<a href="#">By Responsible Agency</a>	Point, Nonpoint, Onroad, Nonroad, Event emissions data for a single S/L/T Agency's jurisdiction. Both EIS and S/L/T Agency identifiers are provided.
- Emissions Summaries**

Emissions data aggregated to various levels of detail in a flat file CSV format. Can filter by pollutant, geographic area, Facility Type, NAICS, regulations, sector or Source Classification Codes. Request run every 15 minutes.

Report Name	Report Description
<a href="#">By Facility</a>	Point emissions data at facility, unit, process, or release point level. Both EIS and S/L/T Agency identifiers are provided.
<a href="#">By Geography</a>	Point, Nonpoint, Onroad, Nonroad or Event emissions data at National, Regional, State/Tribe or County geographic level.
- Event Comparisons**

Report Name	Report Description

# Snapshot - Facility

# Staging Tables

The screenshot shows the Microsoft Access 2010 interface. The title bar reads "OR\_FP\_Test\_1\_2 : Database (Access 2000 file format) - Microsoft Access". The ribbon includes "Home", "Create", "External Data", and "Database Tools". The "Tables" task pane on the left lists the following tables:

- AlternativeFacilityIdentification
- AlternativeFacilityName
- AlternativeUnitIdentification
- CERS
- ControlApproach
- ControlMeasure
- ControlPollutant
- Emissions
- EmissionsProcess
- EmissionsUnit
- ExchangeHeader
- FacilitySite
- FacilitySiteGeographicCoordinat...
- OperatingDetails
- Regulation
- ReleasePoint
- ReleasePointApportionment
- ReleasePointGeographicCoordi...
- ReportingPeriod
- SupplementalParameter

A callout box with a white background and black text points to the first three tables. The text reads: "If planning on adjusting data and resubmitting, the Alternative table records must be deleted from the tables prior to submission".

The Windows taskbar at the bottom shows the system tray with the time 1:57 PM and date 4/5/2012.

# When would I want to use a facility snapshot?

- Could be used to compare current EIS facilities, IDs, processes, controls, etc. to your updated Agency system version.
- Could be used to do a mass change of identifiers for facilities, units, processes and/or release points.

# Emissions Snapshot

# What can the Emissions Snapshot be used for?

- Could be used to submit emissions data by updating the Reporting Period and Emissions tables.
- Checking emission factors, throughputs and other fields that are not available in other reports
- Correcting a single pollutant and resubmitting the other pollutant emissions “as is”

# Emissions Summaries by Facility

**ACCOUNT DATA**

**Facility Configuration**  
7 reports providing details of different aspects of the Facility Configurations, across all Agencies, filterable by geography, NAICs, Facility Type, Oper Status or Reg Code. Only EIS identifiers provided.

**Emissions Snapshot**  
All Emissions data elements in CERS XML format for Point, Nonpoint, Onroad, Nonroad, or Event emissions. Can be run for either S/L/T Agency reported emissions or for USEPA emissions datasets. Data is returned at Process ID or SCC level detail. Snapshot updates can be requested and will be generated overnight.

Report Name	Report Description
<a href="#">By Responsible Agency</a>	Point, Nonpoint, Onroad, Nonroad, Event emissions data for a single S/L/T Agency's jurisdiction. Both EIS and S/IT Agency identifiers are provided.
<a href="#">By Facility Type</a>	Point emissions data for all facilities which have been tagged as a single specific Facility Type. Only EIS identifiers are provided.

**Emissions Summaries**  
Emissions data aggregated to various levels of detail in a flat file CSV format. Can filter by pollutant, geographic area, Facility Type, NAICS, regulations, sector or Source Classification Codes. Request run every 15 minutes.

Report Name	Report Description
<a href="#">By Facility</a>	Point emissions data at facility, unit, process, or release point level. Both EIS and S/L/T Agency identifiers are provided.
<a href="#">By Geography</a>	Point, Nonpoint, Onroad, Nonroad or Event emissions data at National, Regional, State/Tribe or County geographic level.

**Event Comparisons**

Report Name	Report Description
<a href="#">Event/Event Comparison</a>	Provides a comparison for events that may have been reported in more than one data set.
<a href="#">Event/Nonpoint Comparison</a>	Provides a comparison of emissions where event related emissions may have been reported in both the Event and NonPoint data categories.

**Downloads**

Report Name	Report Description
<a href="#">Large File Download</a>	Also located under Reports on the Gateway sidebar, a set of full US emissions summaries and SMOKE flat files already

# Emissions Summaries by Facility

The screenshot shows the EIS Gateway web application in Internet Explorer. The browser address bar displays the URL: <https://eis.epa.gov/eis-system-web/reports/facilityAggregate/criteria.html>. The page title is "Emissions Summaries by Facility (CSV)".

The main content area is titled "Emissions Summaries by Facility (CSV)" and contains a "Report Criteria" section. The criteria are listed as follows:

Report Criteria	Details
Report Type	» a Report Type is required.
Data Set	» a Data Set is required.
Pollutants	» at least one Pollutant is required.
Geography	» All geographic regions included.
Source Types	» all Source Types included.
Regulation	» No regulation selected.
SCC	» No source classifications selected.

Below the criteria, there is a "Report Type" section with a dropdown menu. The "Facility" option is selected and highlighted with a red circle.

The "Facility" section includes the following information:

Report Type
Facility
Emissions Unit
Emissions Process
Report Temporarily Unavailable

At the bottom of the page, there is a "Data Set or Selection" section.

The left sidebar contains navigation links under three categories:

- VIEW/ADD/EDIT**
  - » Facility Inventory and Point Emissions
  - » Potential Duplicate Facilities
  - » Merge Processes
  - » Nonpoint/ Onroad/ Nonroad Emissions
  - » Event Emissions
  - » NCD Activity Data
  - » Inventory Selection
- REPORTS**
  - » Request Reports
  - » Report Downloads
  - » Large File Download
  - » Feedback Reports
  - » Agency Submission History Report
- REFERENCE DATA**

The bottom status bar shows "Local intranet" and "100%".

**Facility Configuration Reports**

Facility Inventory data elements at various levels of detail in a flat file CSV format. Can filter by a variety of criteria depending on level of detail requested. Requests run every 15 minutes.

Report Name	Report Description
<a href="#">Facility Configuration</a>	7 reports providing details of different aspects of the Facility Configurations, across all Agencies, filterable by geography, NAICs, Facility Type, Oper Status or Reg Code. Only EIS identifiers provided.

**Emissions Snapshot**

All Emissions data elements in CERS XML format for Point, Nonpoint, Onroad, Nonroad, or Event emissions. Can be run for either S/L/T Agency reported emissions or for USEPA emissions datasets. Data is returned at Process ID or SCC level detail. Snapshot updates can be requested and will be generated overnight.

Report Name	Report Description
<a href="#">By Responsible Agency</a>	Point, Nonpoint, Onroad, Nonroad, Event emissions data for a single S/L/T Agency's jurisdiction. Both EIS and S/L/T Agency identifiers are provided.
<a href="#">By Facility Type</a>	Point emissions data for all facilities which have been tagged as a single specific Facility Type. Only EIS identifiers are provided.

**Emissions Summaries**

Emissions data aggregated to various levels of detail in a flat file CSV format. Can filter by pollutant, geographic area, Facility Type, NAICS, regulations, sector or Source Classification Codes. Request run every 15 minutes.

Report Name	Report Description
<a href="#">By Facility</a>	Point emissions data at facility, unit, process, or release point level. Both EIS and S/L/T Agency identifiers are provided.
<a href="#">By Geography</a>	Point, Nonpoint, Onroad, Nonroad or Event emissions data at National, Regional, State/Tribe or County geographic level.

**Event Comparisons**

Report Name	Report Description
<a href="#">Event/Event Comparison</a>	Provides a comparison for events that may have been reported in more than one data set.
<a href="#">Event/Nonpoint Comparison</a>	Provides a comparison of emissions where event related emissions may have been reported in both the Event and NonPoint data categories.

# Emission Summary by Geography County by Data Category

The screenshot shows the EIS Gateway web application in Internet Explorer. The browser address bar displays the URL: <https://eis.epa.gov/eis-system-web/reports/geographicAggregate/criteria.html>. The page title is "EIS Gateway" and the user is logged in as Sally Dombrowski with various roles.

The main content area is titled "Emissions Summaries by Geography (CSV)". It contains a "Report Criteria" section with the following details:

- Report Type:** » County by Data Category
- Data Set:** » a Data Set is required.
- Pollutants:** » at least one Pollutant is required.
- Geography:** » All geographic regions included.
- Sectors:** » All Sectors Selected.

Below the criteria is a "Report Type" dropdown menu. The selected option is "County by Data Category", which is highlighted with a red circle. Other options in the list include National by Data Category, National by Sector, National by Source Classification, Regional by Data Category, Regional by Sector, Regional by Source Classification, State/Tribe by Data Category, State/Tribe by Sector, State/Tribe by Source Classification, County by Sector, and County by Source Classification.

The left sidebar contains navigation menus for "VIEW/ADD/EDIT", "REPORTS", and "REFERENCE DATA".

The bottom status bar shows "Local intranet" and "100%" zoom.

- **Data set**

# How can I use the Emission Summary by Facility/Geography Report?

- Check EIS against your database
- Check process level emissions for a particular SCC
- Check unit level emissions against unit type.
- Where is a particular emission coming from
- Are most emissions stack or fugitive releases
- For the NEI, what EPA processes/pollutants were used and what are they

# Emissions Summary by Facility (Emission Process)

The screenshot displays the EPA Emissions Summary by Facility web application. The browser window title is "EIS - Windows Internet Explorer provided by EPA". The address bar shows the URL: <https://eis.epa.gov/eis-system-web/reports/facilityAggregate/criteria.html>. The page content is organized into several sections:

- Left Sidebar:** Contains navigation links for "POINT EMISSIONS" (Potential Duplicate Facilities, Merge Processes, Nonpoint/ Onroad/ Nonroad Emissions, Event Emissions, NCD Activity Data, CDB Activity Data, Inventory Selection) and "REPORTS" (Request Reports, Report Downloads, Large File Download, Feedback Reports, Agency Submission History Report). Below this is the "REFERENCE DATA" section (Reporting Code Tables, QA Checks, View Dataset Identifiers, Inventory Cycle Management, EIS Bridge).
- Main Content Area:** Displays report details for "Emissions Process".
  - Report Type:** » Emissions Process
  - Data Set:** » 2008-2008 V2\_0 GPR
  - Pollutants:** » NOX
  - Geography:** » All geographic regions included.
  - Source Types:** » Airport
  - Regulation:** » No regulation selected.
  - SCC:** » No source classifications selected.
- Facility Types:** A list of facility types is shown, with "Airport" highlighted. The list includes: Airport, Animal Feedlots, Auto Body Shops & Painters, Automobile/Truck Manufacturing, Bakeries, Breweries/Distilleries/Wineries, Brick Manufacturing & Structural clay, Bulk Terminals/Bulk Plants, and Calcined Pet coke.

# Agency Submission History Report

The screenshot shows a Microsoft Excel spreadsheet titled "eis-export[1].csv". The spreadsheet contains a table with columns: EIS Facility ID, State and County Code, Tribal Code, Agency System Code, Agency ID, Facility Name, Operating Status, Operating Status Year, Expected, NAICS Code, Facility Type, Process Count, and Pollutant Count. A filter menu is open over the "Process Count" column, showing options like "Sort Smallest to Largest", "Sort Largest to Smallest", "Sort by Color", "Clear Filter From 'Process Count'", "Filter by Color", and "Number Filters". The "Number Filters" section is expanded, showing a list of values with checkboxes, including "(Blanks)" which is checked. A red circle highlights the "Process Count" column header.

# Agency Submission History Report

The screenshot shows a Microsoft Excel spreadsheet titled "eis-export[1].csv - Microsoft Excel". The ribbon includes Home, Insert, Page Layout, Formulas, Data, Review, View, and Acrobat. The data is organized in a table with the following columns: EIS Facility ID, State and County Code, Tribal Code, Agency System Code, Agency ID, Facility Name, Operating Status, Operating Status Year, Expected?, NAICS Code, Facility Type, Process Count, and Pollutant Count. The rows are numbered 310 to 332. A red circle highlights the "Process Count" column for rows 310 through 332. The status bar at the bottom indicates "Ready 42 of 350 records found".

The main content area, titled "Request Reports", contains several expandable sections:

- Facility Snapshot**

All Facility Inventory data elements in CERS XML format. Snapshot updates can be requested and will be generated overnight.

Report Name	Report Description
<a href="#">By Responsible Agency</a>	All facilities within a single S/L/T Agency's jurisdiction are included, whether added to EIS by the S/L/T or by EPA. Both EIS and S/L/T Agency identifiers are provided.
- Facility Configuration Reports** (highlighted with a red circle)

Facility Inventory data elements at various levels of detail in a flat file CSV format. Can filter by a variety of criteria depending on level of detail requested. Requests run every 15 minutes.

Report Name	Report Description
<a href="#">Facility Configuration</a>	7 reports providing details of different aspects of the Facility Configurations, across all Agencies, filterable by geography, NAICS, Facility Type, Oper Status or Reg Code. Only EIS identifiers provided.
- Emissions Snapshot**

All Emissions data elements in CERS XML format for Point, Nonpoint, Onroad, Nonroad, or Event emissions. Can be run for either S/L/T Agency reported emissions or for USEPA emissions datasets. Data is returned at Process ID or SCC level detail. Snapshot updates can be requested and will be generated overnight.

Report Name	Report Description
<a href="#">By Responsible Agency</a>	Point, Nonpoint, Onroad, Nonroad, Event emissions data for a single S/L/T Agency's jurisdiction. Both EIS and S/L/T Agency identifiers are provided.
- Emissions Summaries**

Emissions data aggregated to various levels of detail in a flat file CSV format. Can filter by pollutant, geographic area, Facility Type, NAICS, regulations, sector or Source Classification Codes. Request run every 15 minutes.

Report Name	Report Description
<a href="#">By Facility</a>	Point emissions data at facility, unit, process, or release point level. Both EIS and S/L/T Agency identifiers are provided.
<a href="#">By Geography</a>	Point, Nonpoint, Onroad, Nonroad or Event emissions data at National, Regional, State/Tribe or County geographic level.
- Event Comparisons**

Report Name	Report Description
-------------	--------------------
- Downloads**

The Windows taskbar at the bottom shows the system time as 2:20 PM on 4/5/2012.

# What can the Configuration Report be used for?

- Check to see if SCC is consistent between unit description/comment and process description/comment. Help to eliminate the use of 399999
- Tracking changes for facility which are expected to be covered by regulations.
- Check consistency across facility such as the Unit Type Code is the same as unit description

# Report Download

The screenshot shows the EPA EIS System Web Reports interface. The browser address bar displays <https://eis.epa.gov/eis-system-web/reports/>. The page is organized into several sections:

- VIEW/ADD/EDIT**:
  - » Facility Inventory and Point Emissions
  - » Potential Duplicate Facilities
  - » Nonpoint/ Onroad/ Nonroad Emissions
  - » Event Emissions
  - » NCD Activity Data
- REPORTS**:
  - » Request Reports
  - » Report Downloads (circled in red)
  - » Large File Download
  - » Feedback Reports
  - » Agency Submission History Report

Report Type: Facility  
 Data Set: 2010-California Air Resources Board  
 Pollutants: 7439921, CO, NH3, NOX, PM-CON, PM10-FIL, PM10-PRI, PM25-FIL, PM25-PRI, SO2, VOC, CH4, CO2, HFC, N2O, PFC, SF6, 100027, 1002671, 100414, 100425, 10043660, 100447, 101144, 10137969, 10137981, 10143530, 10143541, 10143563, 101688, 101779, 10215335, 106423, 106445, 106467, 106503, 106514, 106887, 106898, 106934, 106990, 107028, 107051, 107062, 107131, 107211, 107302, 108054, 108101, 108316, 108383, 108394, 108883, 108907, 108952, 109864, 110496, 110543, 110714, 110805, 111104, 111159, 111422, 111444, 111773, 111900, 111966, 1120714, 112072, 112152, 112254, 112276, 112345, 112356, 112367, 112492, 112505, 112594, 114261, 117817, 118741, 119904, 119937, 120127, 12035722, 120558, 120809, 120821, 121142, 121448, 121697, 122667, 122996, 123319, 123386, 123911, 124174, 126998, 127184, 129000, 130498292, 131113, 1313991, 1319773, 132649, 1330207, 133062, 1332214, 1333820, 1336363, 133904, 13966002, 13981527, 13982633, 140, 140056, 140885, 141, 142, 14255040, 14269637, 14274829, 143226, 14859677, 151564, 156627, 1562098, 1589497, 16065831, 1634044, 16672392, 171, 1746016, 18540299, 18912806, 189559, 189640, 191242, 191300, 192654, 192972, 193395, 19408743, 194592, 195197, 198550, 203123, 203338, 2050682, 2051243, 2051607, 205823, 205992, 206440, 20706256, 207089, 208968, 218019, 224420, 226368, 23436193, 23495127, 2381217, 2422799, 250, 25429292, 26601649, 26914181, 26914330, 27310210, 2807309, 284, 28655712, 302012, 3121617, 3268879, 334883, 35822469, 3697243, 3775857, 383, 39001020, 39227286, 40321764, 41637905, 4206615, 42397648, 42397659, 4439241, 463581, 50000, 50328, 510156, 51207319, 51285, 51796, 532274, 534521, 53703, 53742077, 53963, 540841, 542756, 542881, 5522430, 55673897, 55722264, 56235, 56382, 56495, 56553, 56832736, 57117314, 57117416, 57117449, 57125, 57147, 57578, 57653857, 57749, 57835924, 57976, 584849, 58899, 593602, 59892, 600, 60117, 602879, 60344, 60355, 604, 605, 607578, 608, 60851345, 613, 616, 617, 622082, 624839, 62533, 626, 627, 62737, 62759, 628, 629141, 63252, 64675, 65357699, 67425, 67561, 67562394, 67663, 67721, 680319, 68122, 684935, 693210, 7012375, 70648269, 71432, 71556, 72435, 72559, 72918219, 7439965, 7439976, 7440020, 7440291, 7440360, 7440382, 7440417, 7440439, 7440473, 7440484, 7440611, 74839, 74873, 74884, 74908, 7496028, 75003, 75014, 75058, 75070, 75092, 75150, 75218, 75252, 7529273, 75343, 75354, 75445, 7550450, 75558, 75569, 76448, 764487, 7647010, 764998, 7664393, 7723140, 7738945, 77474, 77781, 7782492, 7782505, 779022, 7795917, 7803512, 78591, 78875, 79005, 79016, 79061, 79107, 79118, 79345, 79447, 79469, 8001352, 8007452, 80626, 822060, 82688, 832699, 83329, 84742, 85018, 85449, 86737, 86748, 87683, 87865, 88062, 90040, 90120, 91203, 91225, 91576, 91587, 91941, 92524, 92671, 92875, 92933, 929373, 94757, 95476, 95487, 95534, 95807, 95954, 96093, 96128, 96457, 98077, 98828, 98862, 98953, 540885, 7783064  
 NAICS: 5172, 51721, 517210

# I want to...

- **Find what counties in my state, reported residential wood emissions in 2008**
  - Emissions Summary by Geography
  - Select a Report Type of County by Sector
  - Select 2008 data set for your agency
  - Under Sectors filter use the Search box to find any Residential sectors using words such as “Residential” or “wood”
  - Select the Sector Fuel Comb-Residential-Wood
  - Request Download

# I want to...

- **Do a comparison across inventory years.**
  - Select an emission summary report at the level of interest (facility or geographic)
  - Select one a single data set (2008 Alabama Department of Environmental Management; or 2009 General Purpose Release; or 2008 EPA Onroad NCD20101201)
  - Select your pollutants of interest
  - Select Request Report
  - Repeat for each inventory year or dataset that you want to compare.
  - Use MS Access to link the tables and create your comparison.

# I want to...

- See all of the emission factors which were used in the 2008 nonpoint inventory.
  - Select Emissions Snapshot
  - Select inventory year data set such as 2008 North Carolina Department of Environmental and Natural Resources; or 2008 EIAG all in NP
  - Select Data Category = Nonpoint
  - Do this snapshot twice
    - Once for your agency
    - Second for EPA Augmented data
  - Use Access to link the reports together.

# I want to...

- Download the Event Inventory
  - Currently there are no reports which will allow you to download day specific data at this time.
  - Emissions Summary by Geography/County Level by SCC
    - **2008EPA Event\_Summary data set**
    - Pollutants of interest
    - Region, State or County of interest
    - Data Category = Event

# Questions

- Send me scenarios of what you would like to pull out of EIS, and I will add them to the Q&A with instructions.
