

Activity Sheet

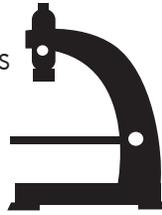

Back Deck

Bottom grab catches _____
on the ocean floor. _____
use these samples to measure the
concentrations of pollutants in the
mud or to look at the small marine
life. They can tell if the study area
is a healthy environment or is
_____ depending on what
they find.

Dry Lab

True or False:
An invasive species
is one that doesn't
naturally belong.

Dive Locker

buddy	T	D	E	T	F	A	B	U
dive	L	I	Q	I	B	O	K	G
drysuit	X	V	U	U	Z	X	L	G
oxygen	Q	E	C	S	P	Y	I	L
scuba	R	S	Z	Y	T	G	C	X
snorkel	S	N	O	R	K	E	L	O
wetsuit	B	U	D	D	Y	N	W	A
	D	G	B	Y	I	D	H	A

Wet Lab

What would you NOT find in
the Wet Lab on the Bold?

- a) sieve station
- b) scientist
- c) ice machine
- d) ice cream
- e) navigation chart

Computer Lab

The CTD is made up of a set of small
high tech probes, attached to the large
metal rosette water sampler. The rosette is
lowered on a cable. Sometimes all the way to
the seafloor! While the CTD is still underwater
it reports electronic messages through a cable
back to the onboard computer lab.

What does CTD stand for?

C _____

T _____

D _____

Bridge

Who gets to steer
the ship?
(circle all that apply)

- a) second mate
- b) engineer
- c) captain
- d) chief mate

Do you have a question for someone? Ask away landlubbers!!
