5:45

Evening Networking Reception

Friday, October 2

The Friday roundtable discussion featured administrators of state-run CHP grant programs from CHP-leading states who highlighted their program objectives and the mechanisms used by the programs to select projects, establish funding levels, and trigger payments. In addition to detailing the program elements, the discussions explained the rationale for the program elements. State programs featured include: California Programs, Massachusetts Department of Energy Resources, New York State Energy Research and Development Authority, New Jersey Office of Clean Energy, and Oregon Department of Energy.
