

Summary of Definition of Solid Waste Final Rule Notifications

As of April 11, 2012

Under the Revisions to the Definition of Solid Waste (DSW) final rule, published October 30, 2008 (73 FR 64668), facilities are required to notify their regulatory authority prior to managing hazardous secondary materials under the DSW rule and every other year thereafter. EPA is providing this *Summary of Definition of Solid Waste Final Rule Notifications* to allow public access to the information received from these notifications. Note: The information from the notifications is reported as it was submitted by the companies; some information from recent re-notifications may not be included.

<u>State/Territory</u>	<u># of facilities that have submitted a DSW notification</u>
Idaho	2
Illinois	4
Iowa	18
New Jersey	17
Pennsylvania	24
Puerto Rico	1
U.S. Virgin Islands	1
TOTAL	67

<u>Facility Type</u>	<u># of facilities¹</u>
Generator-controlled exclusion, reclaiming onsite	27
Generator-controlled exclusion, reclaiming within same company	4
Generator-controlled exclusion, tolling	1
Transfer-based exclusion, generator transferring offsite	34
Transfer-based exclusion, reclamation facility ²	5
Transfer-based exclusion, intermediate facility	0
Transfer-based exclusion, generator exporting HSM	0
Transfer-based exclusion, reclamation facility importing HSM	1

¹ Some facilities notified they are operating as multiple facility types and thus are counted more than once in this column.

² Five reclaimers have notified under the rule (INMETCO Ellwood City, PA; Safety-Kleen Linden, NJ; Veolia Middlesex, NJ, World Resources Company Pottsville, PA and Clean Harbors RSC Chicago, IL). All are have RCRA permits.

Hazardous Secondary Material Type

	<u># of facilities</u> ³
Spent Solvents (F001-F005, D035, plus D001)	33
Electric arc furnace dust (K061)	6
Spent pickle liquor (K062)	5
WW treatment sludges; plating bath residues from electroplating operations (F006;F007;F008)	5
Petroleum refining sludges; tank sediments (F037;F038;K050;K051;K169;K170)	1
Ignitable and/or corrosive (only) (D001, D002)	16
Characteristically toxic for metals (D004-D011) ⁴	6
Other characteristically toxic (D012-D043, except D035)	4

³ Some facilities notified they are managing multiple types of hazardous secondary materials and thus are counted more than once in this column.

⁴ May also be ignitable or corrosive.
