

# ENROLL US

## We Want to Be a Partner in EPA's National Partnership for Environmental Priorities

### IDENTIFYING INFORMATION

Name of Organization: Argonne National Laboratory  
Principal Contact: Gregg Kulma  
Authorizing Official: Adam Cohen  
Address: 9700 South Cass Avenue  
Phone/Fax: (630) 252-9247/(630) 252-5965  
EPA RCRA ID Number: 380008946

Facility Name: Argonne National Laboratory  
Title: Pollution Prevention/Waste Min. Program Manager  
Title: Chief Operations Officer  
City/State/Zip: Argonne, IL 60439  
Email: gkulma@anl.gov  
Date: 2/17/2006

### PARTNER AGREEMENT

Our organization is choosing to become a partner in EPA's National Partnership for Environmental Priorities. Our goal is to reduce the quantity of one or more Priority Chemicals currently found in our products, processes, or releases using techniques such as source reduction, recycling, or other materials management practices. In this enrollment application, we identify one or more voluntary goals that we believe we can achieve as partners in this program. The voluntary goal(s) provided below is an initial estimate and may change over time. We may revise our goal(s) or withdraw from the program at any time. If/when we choose to revise our goals or withdraw from the program, we will notify EPA.

**GOAL #1. Chemical Name:** PCBs **CASRN:** 1336-36-3

#### **Narrative description of proposed project:**

The project involves the storage and disposal of inactive PCB-containing capacitors, both accessible (not attached to a structure) and inaccessible (attached to a structure) and other electrical equipment.

#### **How we will measure success:**

We will measure success by the amount of PCBs removed from our facility.

1a. Our voluntary **source reduction** goal for Chemical #1 is to reduce the amount of this chemical generated/used from a baseline amount of 6000 pounds in 7/2009 (month/year) to a reduced amount of 0 pounds generated/used by 2/2010 (month/year).

1b. To accomplish this goal, we will use the following source reduction options (check all that apply):

- |                                     |  |                                     |   |
|-------------------------------------|--|-------------------------------------|---|
| <input type="checkbox"/>            | Equipment or technology modifications. | <input type="checkbox"/>            | Process or procedure modifications.                 |
| <input checked="" type="checkbox"/> | Reformulation or redesign of products. | <input checked="" type="checkbox"/> | Substitution of less toxic raw materials.           |
| <input type="checkbox"/>            | Improvements in inventory control.     | <input type="checkbox"/>            | Improvements in maintenance/housekeeping practices. |
| <input type="checkbox"/>            | Other (describe): _____                |                                     |   |

2a. In addition to, or in lieu of using source reduction methods, our voluntary **recycling or recovery** goal for Chemical #1 is to increase the recycled or recovered quantity of this chemical from a baseline amount of \_\_\_\_\_ pounds in \_\_\_\_\_ (month/year) to an increased quantity of \_\_\_\_\_ pounds by \_\_\_\_\_ (month/year).

2b. To accomplish this recycling or recovery goal, we will use the following options (check all that apply):

- Direct use/reuse in a process to make a product.
- Processing the waste to recover or regenerate a usable product.
- Using/reusing waste as a substitute for a commercial product.
- Other (describe): \_\_\_\_\_

3. We have a Quality Assurance/Quality Control Plan for data (check which applies).  Yes  No

**Please use supplemental sheets for additional goals.**
