

# ENROLL US

## We Want to Be a Partner in EPA's National Partnership for Environmental Priorities

### IDENTIFYING INFORMATION

Name of Organization: The Bike Hut Foundation  
Principal Contact: Michael Klett  
Authorizing Official: Michael Klett  
Address: Pier 40  
Phone/Fax: (415) 359-5439  
EPA RCRA ID Number: \_\_\_\_\_

Facility Name: Bike Hut  
Title: President  
Title: President  
City/State/Zip: San Francisco, CA 94107  
Email: thebikehut@gmail.com  
Date: May 19, 2009

### PARTNER AGREEMENT

Our organization is choosing to become a partner in EPA's National Partnership for Environmental Priorities. Our goal is to reduce the quantity of one or more Priority Chemicals currently found in our products, processes, or releases using techniques such as source reduction, recycling, or other materials management practices. In this enrollment application, we identify one or more voluntary goals that we believe we can achieve as partners in this program. The voluntary goal(s) provided below is an initial estimate and may change over time. We may revise our goal(s) or withdraw from the program at any time. If/when we choose to revise our goals or withdraw from the program, we will notify EPA.

**GOAL #1. Chemical Name:** Lead **CASRN:** 7439-92-1

#### **Narrative description of proposed project:**

The Bike Hut is a non-profit shop that provides youth training through bicycle repairs, rentals and sales of used bikes. Our project will be to spread the word about the threat that lead wheel weights pose to the environment. We will explain how to identify the weights, how to handle safely and we will be a drop off point for all wheel weights collected.

#### **How we will measure success:**

Success will be measured by quantity of lead recycled and the rise in public awareness.

1a. Our voluntary **source reduction** goal for Chemical #1 is to reduce the amount of this chemical generated/used from a baseline amount of \_\_\_\_\_ pounds in \_\_\_\_\_ (month/year) to a reduced amount of \_\_\_\_\_ pounds generated/used by \_\_\_\_\_ (month/year).

1b. To accomplish this goal, we will use the following source reduction options (check all that apply):

- |                          |  |                          |   |
|--------------------------|--|--------------------------|---|
| <input type="checkbox"/> | Equipment or technology modifications. | <input type="checkbox"/> | Process or procedure modifications.                 |
| <input type="checkbox"/> | Reformulation or redesign of products. | <input type="checkbox"/> | Substitution of less toxic raw materials.           |
| <input type="checkbox"/> | Improvements in inventory control.     | <input type="checkbox"/> | Improvements in maintenance/housekeeping practices. |
| <input type="checkbox"/> | Other (describe): _____                |                          |   |

2a. In addition to, or in lieu of using source reduction methods, our voluntary **recycling or recovery** goal for Chemical #1 is to increase the recycled or recovered quantity of this chemical from a baseline amount of 0 pounds in 6/2009 (month/year) to an increased quantity of 1000 pounds by 5/2010 (month/year).

2b. To accomplish this recycling or recovery goal, we will use the following options (check all that apply):

- |                                     |  |
|-------------------------------------|--|
| <input type="checkbox"/>            | Direct use/reuse in a process to make a product.   |
| <input type="checkbox"/>            | Processing the waste to recover or regenerate a usable product.                              |
| <input type="checkbox"/>            | Using/reusing waste as a substitute for a commercial product.                                |
| <input checked="" type="checkbox"/> | Other (describe): <u>All wheel weights will be delivered to an authorized lead recycler.</u> |

3. We have a Quality Assurance/Quality Control Plan for data (check which applies).  Yes  No

**Please use supplemental sheets for additional goals.**
