

ENROLL US

We Want to Be a Partner in EPA's
National Partnership for Environmental Priorities

IDENTIFYING INFORMATION

Name of Organization: Bridgestone Firestone Motorsports
Principal Contact: Greer Tidwell
Authorizing Official: Al Speyer
Address: 1200 Firestone Pkwy
Phone/Fax: (615) 937 6867
EPA RCRA ID Number: n/a

Facility Name: Firestone Racing
Title: Director Environmental Management
Title: Executive Director
City/State/Zip: Akron, OH 44317
Email: TidwellGreer@bfusa.com
Date: November 12, 2008

PARTNER AGREEMENT

Our organization is choosing to become a partner in EPA's National Partnership for Environmental Priorities. Our goal is to reduce the quantity of one or more Priority Chemicals currently found in our products, processes, or releases using techniques such as source reduction, recycling, or other materials management practices. In this enrollment application, we identify one or more voluntary goals that we believe we can achieve as partners in this program. The voluntary goal(s) provided below is an initial estimate and may change over time. We may revise our goal(s) or withdraw from the program at any time. If/when we choose to revise our goals or withdraw from the program, we will notify EPA.

GOAL #1. Chemical Name: Lead **CASRN:** 7439-92-1

Narrative description of proposed project:

During 2008, Bridgestone Firestone Motorsports will permanently replace the use of all lead wheel weights with non-toxic steel wheel weights in all of Firestone Racing's IndyCar Series and Firestone Indy Lights operations. The transition from lead wheel weights to steel wheel weights will take place by the end of 2008. In a typical calendar year, Firestone Racing expects to use approximately 2,240 lbs of wheel weights.

How we will measure success:

Success will be measured in terms of the amount (in pounds) of steel wheel weights used for calendar year 2008.

1a. Our voluntary **source reduction** goal for Chemical #1 is to reduce the amount of this chemical generated/used from a baseline amount of 2,240 pounds in February, 2008 (month/year) to a reduced amount of 0 pounds generated/used by December, 2008 (month/year).

1b. To accomplish this goal, we will use the following source reduction options (check all that apply):

- | | | | |
|-------------------------------------|--|--------------------------|---|
| <input checked="" type="checkbox"/> | Equipment or technology modifications. | <input type="checkbox"/> | Process or procedure modifications. |
| <input type="checkbox"/> | Reformulation or redesign of products. | <input type="checkbox"/> | Substitution of less toxic raw materials. |
| <input type="checkbox"/> | Improvements in inventory control. | <input type="checkbox"/> | Improvements in maintenance/housekeeping practices. |
| <input type="checkbox"/> | Other (describe): _____ | | |

2a. In addition to, or in lieu of using source reduction methods, our voluntary **recycling or recovery** goal for Chemical #1 is to increase the recycled or recovered quantity of this chemical from a baseline amount of _____ pounds in _____ (month/year) to an increased quantity of _____ pounds by _____ (month/year).

2b. To accomplish this recycling or recovery goal, we will use the following options (check all that apply):

- | | |
|--------------------------|---|
| <input type="checkbox"/> | Direct use/reuse in a process to make a product. |
| <input type="checkbox"/> | Processing the waste to recover or regenerate a usable product. |
| <input type="checkbox"/> | Using/reusing waste as a substitute for a commercial product. |
| <input type="checkbox"/> | Other (describe): _____ |

3. We have a Quality Assurance/Quality Control Plan for data (check which applies). Yes No

Please use supplemental sheets for additional goals.
