

ENROLL US

We Want to Be a Partner in EPA's
National Partnership for Environmental Priorities

IDENTIFYING INFORMATION

Name of Organization: U.S. Army
Principal Contact: Linda Pollock
Authorizing Official: Eric Schwartz
Address: 125 6th Ave Ste 320 / Bldg. 1110-A
Phone/Fax: (502) 624-3629/(502) 624-3000
EPA RCRA ID Number: KY6210020479

Facility Name: U.S. Army Garrison Ft. Knox
Title: Chief, Environmental Management Division
Title: COL, Armor
City/State/Zip: Fort Knox, KY 40121
Email: linda.pollock@us.army.mil
Date: April 2, 2009

PARTNER AGREEMENT

Our organization is choosing to become a partner in EPA's National Partnership for Environmental Priorities. Our goal is to reduce the quantity of one or more Priority Chemicals currently found in our products, processes, or releases using techniques such as source reduction, recycling, or other materials management practices. In this enrollment application, we identify one or more voluntary goals that we believe we can achieve as partners in this program. The voluntary goal(s) provided below is an initial estimate and may change over time. We may revise our goal(s) or withdraw from the program at any time. If/when we choose to revise our goals or withdraw from the program, we will notify EPA.

GOAL #1. Chemical Name: Mercury **CASRN:** 7439-97-6

Narrative description of proposed project:

Fort Knox is currently removing mercury instruments at the water plant and taking mercury switches out of service. Fort Knox is also working with the privatized housing contractor, Knox Hills, to replace mercury switches and thermostats with mercury-free devices when changing out unserviceable units.

How we will measure success:

We will determine success by the amount of mercury and mercury-containing devices removed.

1a. Our voluntary **source reduction** goal for Chemical #1 is to reduce the amount of this chemical generated/used from a baseline amount of 450 pounds in January, 2009 (month/year) to a reduced amount of 0 pounds generated/used by December, 2012 (month/year).

1b. To accomplish this goal, we will use the following source reduction options (check all that apply):

- | | | | |
|-------------------------------------|--|--------------------------|---|
| <input checked="" type="checkbox"/> | Equipment or technology modifications. | <input type="checkbox"/> | Process or procedure modifications. |
| <input type="checkbox"/> | Reformulation or redesign of products. | <input type="checkbox"/> | Substitution of less toxic raw materials. |
| <input type="checkbox"/> | Improvements in inventory control. | <input type="checkbox"/> | Improvements in maintenance/housekeeping practices. |
| <input type="checkbox"/> | Other (describe): _____ | | |

2a. In addition to, or in lieu of using source reduction methods, our voluntary **recycling or recovery** goal for Chemical #1 is to increase the recycled or recovered quantity of this chemical from a baseline amount of _____ pounds in _____ (month/year) to an increased quantity of _____ pounds by _____ (month/year).

2b. To accomplish this recycling or recovery goal, we will use the following options (check all that apply):

- | | |
|--------------------------|---|
| <input type="checkbox"/> | Direct use/reuse in a process to make a product. |
| <input type="checkbox"/> | Processing the waste to recover or regenerate a usable product. |
| <input type="checkbox"/> | Using/reusing waste as a substitute for a commercial product. |
| <input type="checkbox"/> | Other (describe): _____ |

3. We have a Quality Assurance/Quality Control Plan for data (check which applies). Yes No

Please use supplemental sheets for additional goals.
