PARTNER AGREEMENT

Our organization is choosing to become a partner in EPA's National Partnership for Environmental Priorities. Our goal is to reduce the quantity of one or more Priority Chemicals currently found in our products, processes, or releases using techniques such as source reduction, recycling, or other materials management practices. In this enrollment application, we identify one or more voluntary goals that we believe we can achieve as partners in this program. The voluntary goal(s) provided below is an initial estimate and may change over time. We may revise our goal(s) or withdraw from the program at any time. If/when we choose to revise our goals or withdraw from the program, we will notify EPA.

GOAL #1. Chemical Name: Lead **CASRN:** 7439-92-1

Narrative description of proposed project:

We are eliminating our leaded wheel weights from our fleet motor vehicles and will use non-leaded wheel weights.

How we will measure success:

We know how many lbs of leaded wheel weights we have, and we'll account for the number of lbs eliminated as we send them to the recycler.

1a. Our voluntary **source reduction** goal for Chemical #1 is to reduce the amount of this chemical generated/used from a baseline amount of 100 pounds in January, 2009 (month/year) to a reduced amount of 0 pounds generated/used by May, 2009 (month/year).

1b. To accomplish this goal, we will use the following source reduction options (check all that apply):

2a. In addition to, or in lieu of using source reduction methods, our voluntary **recycling or recovery** goal for Chemical #1 is to increase the recycled or recovered quantity of this chemical from a baseline amount of _____ pounds in _____ (month/year) to an increased quantity of _____ pounds by _____ (month/year).

2b. To accomplish this recycling or recovery goal, we will use the following options (check all that apply):

- | | |
|--------------------------|---|
| <input type="checkbox"/> | Direct use/reuse in a process to make a product. |
