

# ENROLL US

We Want to Be a Partner in EPA's  
**National Partnership for Environmental Priorities**

---

## IDENTIFYING INFORMATION

Name of Organization: ArcelorMittal USA  
Principal Contact: Jim Herniak  
Authorizing Official: Keith Nagel  
Address: 215 South Front Street  
Phone/Fax: (717) 986-2454  
EPA RCRA ID Number: PAD003026531

Facility Name: Steelton  
Title: Environmental Manager  
Title: Director, Environmental Affairs and Real Estate  
City/State/Zip: Steelton, PA 17113  
Email: jim.herniak@arcelormittal.com  
Date: October 19, 2009

## PARTNER AGREEMENT

Our organization is choosing to become a partner in EPA's National Partnership for Environmental Priorities. Our goal is to reduce the quantity of one or more Priority Chemicals currently found in our products, processes, or releases using techniques such as source reduction, recycling, or other materials management practices. In this enrollment application, we identify one or more voluntary goals that we believe we can achieve as partners in this program. The voluntary goal(s) provided below is an initial estimate and may change over time. We may revise our goal(s) or withdraw from the program at any time. If/when we choose to revise our goals or withdraw from the program, we will notify EPA.

**GOAL #1. Chemical Name:** Polychlorinated biphenyls (PCBs) **CASRN:** 1336-36-3

### **Narrative description of proposed project:**

The ArcelorMittal Steelton Plant will remove 8 PCB transformers from the plant site by the end of 2009 in an effort to be PCB free. The transformers contain approximately 3000 gallons of PCB fluid.

### **How we will measure success:**

We will measure success by quantifying the weight of PCB fluid that is removed from the transformers.

1a. Our voluntary **source reduction** goal for Chemical #1 is to reduce the amount of this chemical generated/used from a baseline amount of 30,000 pounds in August, 2009 (month/year) to a reduced amount of 0 pounds generated/used by December, 2009 (month/year).

1b. To accomplish this goal, we will use the following source reduction options (check all that apply):

- |                                     |   |                          |   |
|-------------------------------------|---|--------------------------|---|
| <input type="checkbox"/>            | Equipment or technology modifications.  | <input type="checkbox"/> | Process or procedure modifications.                 |
| <input type="checkbox"/>            | Reformulation or redesign of products.  | <input type="checkbox"/> | Substitution of less toxic raw materials.           |
| <input type="checkbox"/>            | Improvements in inventory control.  | <input type="checkbox"/> | Improvements in maintenance/housekeeping practices. |
| <input checked="" type="checkbox"/> | Other (describe): <u>Complete removal from site and proper disposal of PCB containing transformers.</u> |                          |   |

2a. In addition to, or in lieu of using source reduction methods, our voluntary **recycling or recovery** goal for Chemical #1 is to increase the recycled or recovered quantity of this chemical from a baseline amount of \_\_\_\_\_ pounds in \_\_\_\_\_ (month/year) to an increased quantity of \_\_\_\_\_ pounds by \_\_\_\_\_ (month/year).

2b. To accomplish this recycling or recovery goal, we will use the following options (check all that apply):

- |                          |   |
|--------------------------|---|
| <input type="checkbox"/> | Direct use/reuse in a process to make a product.                |
| <input type="checkbox"/> | Processing the waste to recover or regenerate a usable product. |
| <input type="checkbox"/> | Using/reusing waste as a substitute for a commercial product.   |
| <input type="checkbox"/> | Other (describe): _____   |

3. We have a Quality Assurance/Quality Control Plan for data (check which applies).  Yes  No

**Please use supplemental sheets for additional goals.**
