BILLING CODE 3710-08-M

DEPARTMENT OF EDUCATION

Notice of Extension of Obligation Deadline for the Emergency Impact Aid for Displaced Students Program Under Section 107 of the Hurricane Education Recovery Act, Division B, Title IV of Public Law 109-148

AGENCY: Office of Elementary and Secondary Education, Department of Education.

SUMMARY: The Secretary extends, to September 30, 2006, the obligation deadline for all State educational agency (SEA) grantees and local educational agency (LEA) subgrantees under the Emergency Impact Aid for Displaced Students (Emergency Impact Aid) program for fiscal year (FY) 2006. We take this action because additional funding for this program for necessary expenses related to the consequences of Hurricanes Katrina and Rita of the 2005 hurricane season was recently made available under Title II, Chapter 6 of the Emergency Supplemental Appropriations Act for Defense, the Global War on Terror, and Hurricane Recovery, 2006, Public Law 109-234.

FOR FURTHER INFORMATION CONTACT: Ms. Catherine Schagh, Director, Impact Aid Program, U.S. Department of Education, 400 Maryland Avenue, SW., room 3E105, Washington, DC 20202-6244. Telephone: (202) 260-3858 or by e-mail: Impact.Aid@ed.gov.

Individuals with disabilities can obtain this document in an alternative format (e.g., Braille, large print, audiotope, or computer diskette) on request to the program contact person listed in this section.

SUPPLEMENTARY INFORMATION:

Background

On January 12, 2006, we published a notice in the **Federal Register** (71 FR 2027) announcing the initial availability of funds and application deadline for assistance under the Emergency Impact Aid program. The notice included a number of application requirements regarding deadlines and student enrollment data and also indicated that all SEAs, LEAs, and Bureau of Indian Affairs (BIA)-funded schools must

obligate all funds received under section 107 of the Hurricane Education Recovery Act by July 31, 2006.

On June 15, 2006, the President signed H.R. 4939, the Emergency Supplemental Appropriations Act for Defense, the Global War on Terror, and Hurricane Recovery, 2006, Public Law 109-234. This law made an additional \$235,000,000 available for the Emergency Impact Aid program and provided us with the authority to extend the obligation period for the use of the new and initial section 107 funds until September 30, 2006. The Secretary is granting this extension to all SEA grantees and LEA or BIA-funded school subgrantees that find it necessary to use it, provided that all section 107 funds are used only for expenses incurred during the 2005-2006 school year. We strongly encourage all entities to make their best effort to complete all obligations in advance of the September 30 date to avoid the lapse of these funds. This action does not change any of the other requirements included in the initial January 12, 2006, notice published in the **Federal Register** or in the program guidance.

Use EPA's electronic docket and comment system at www.regulations.gov, to submit or view public comments, access the index listing of the contents of the docket, and to access those documents in the docket that are available electronically. Once in the system, select "docket search," then key in the docket ID number identified above. Please note that EPA's policy is that public comments, whether submitted electronically, or in paper, will be made available for public viewing at www.regulations.gov, as EPA receives them and without change, unless the comment contains copyrighted material, CBI, or other information whose public disclosure is restricted by statute. For further information about the electronic docket, go to www.regulations.gov.

Title: NESHAP for Benzene Waste Operations (Renewal).

ICR Numbers: EPA ICR Number 1541.08, OMB Control Number 2060-0183.

ICR Status: This ICR is scheduled to expire on August 31, 2006. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, and displayed either by publication in the **Federal Register**, or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: The National Emission Standards for Hazardous Air Pollutants (NESHAP) for the regulations published at 40 CFR part 61, subpart FF were

proposed on September 14, 1989, and promulgated on March 7, 1990. These regulations apply to facilities that generate waste containing benzene, such as chemical manufacturing plants, coke by-product recovery plants, petroleum refineries, and those owners and operators of hazardous waste treatment, storage, and disposal facilities (TSDF) which receive wastes from the above facilities, commencing construction, modification or reconstruction after the date of the proposal. This information is being collected to assure compliance with 40 CFR part 61, subpart FF.

The monitoring, recordkeeping, and reporting requirements outlined in these rules are similar to those required for other NESHAP regulations. Consistent with the NESHAP General Provisions (40 CFR part 63, subpart A), respondents are required to submit initial notifications, conduct performance tests, and submit quarterly or semiannual reports, as applicable. They also are required to maintain records of applicability determinations; performance test results; exceedances; periods of startup, shutdown, or malfunction; monitoring records, and all other information needed to determine compliance with the applicable standards. An owner, or operator subject to the provisions of this part shall maintain a file of these measurements, and retain the file for at least five years following the date of such measurements, maintenance reports, and records. Records and reports must be retained for a total of two years. The files may be maintained on microfilm, on a computer, or floppy disks, on magnetic tape disks, or on microfiche. All reports are sent to the delegated state or local authority. In the event that there is no such delegated authority, the reports are sent directly to the appropriate United States Environmental Protection Agency (EPA) regional office.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 71 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose, or provide information to, or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently

changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit, or otherwise disclose the information.

Respondents/Affected Entities: Owners or operators of benzene waste operations.

Estimated Number of Respondents: 234.

Frequency of Response: On occasion, semiannually, quarterly and initially.

Estimated Total Annual Hour Burden: 16,626.

Estimated Total Annual Capital and Operations and Maintenance Costs: \$0.00.

Changes in the Estimates: There are no changes in the burden calculation for the renewal of this ICR since we have assumed that there has been no change in the industry burden since the last ICR was approved.

Dated: July 12, 2006.

Sara Hisel-McCoy,
Acting Director, Collection Strategies
Division.
