

FGCDs, NSPS subpart J limits the amount of hydrogen sulfide (H₂S) allowed in the fuel gas burned in these devices. Except for fuel gas released to a flare as a result of relief valve leakage or other emergency malfunctions, a facility may not burn fuel gas containing greater than 230 mg/dscm of H₂S in any affected FGCD.

Q2: How does the process upset gas exemption of 40 CFR part 60, subpart J, apply to the flare gas recovery system in operation at Koch Refining's Rosemount, Minnesota, refinery?

A2: The process upset gas exemption under NSPS subpart J applies only to extraordinary, infrequent, and not reasonably preventable upsets. Any gases released as a result of normal operations are not considered upset gases. The routine combustion of refinery gases in a FGCD, including flares and other waste gas disposal devices, do not qualify for the process upset gas exemption of the rule. Based on the background information of the rule, the term upset does not apply to normal operations. Therefore, the rule exempts the combustion of process upset gases in a FGCD, including the combustion in a flare of fuel gas that is released to the flare as a result of relief valve leakage or other emergency malfunction. However, the combustion/flaring of those exempted gases in an NSPS affected FGCD is still required to comply with the good air pollution control practices of 40 CFR 60.11(d), even when such FGCDs are exempt from the sulfur dioxide limit.

Q3: How does NSPS subpart J apply to the various gas streams Koch Refining's Rosemount, Minnesota, refinery?

A3: EPA has analyzed the 26 gas streams identified at the Koch Refining facility and has provided a finding for each of these streams based on the Agency's responses in A1 and A2, above.

Abstract for [0500138]

Q: Does EPA approve an alternative monitoring plan, under 40 CFR, part 60, subpart J, for fuel gases and fuel gas combustion devices (FGCDs) at Koch Refining's Rosemount, Minnesota, refinery?

A: No. Based on the information submitted, EPA does not approve the proposed alternative monitoring plan for fuel gases and FGCDs since it needs to provide for good air pollution control practices to minimize flaring events.

Dated: April 10, 2006.

Michael M. Stahl,

Director, Office of Compliance.

BILLING CODE 6560-50-P

ENVIRONMENTAL PROTECTION AGENCY

[FRL-8161-3]

Science Advisory Board Staff Office; Clean Air Scientific Advisory Committee (CASAC); Notification of a Public Advisory Committee Meeting (Teleconference) of the CASAC Ozone Review Panel

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA or Agency) Science Advisory Board (SAB) Staff Office announces a public teleconference of the Clean Air Scientific Advisory Committee (CASAC) Ozone Review Panel (Ozone Panel) to provide additional advice to the Agency concerning Chapter 8 (Integrative Synthesis) of the *Final Air Quality Criteria for Ozone and Related Photochemical Oxidants* (EPA/600/R-05/004aF-cF, February 2006).

DATES: The teleconference will be held on May 12, 2006, from 1 to 4 p.m. (Eastern Time).

FOR FURTHER INFORMATION CONTACT: Any member of the public who wishes to obtain the teleconference call-in number and access code; would like to submit written or brief (less than five minutes) oral comments; or wants further information concerning this teleconference, must contact Mr. Fred Butterfield, Designated Federal Officer (DFO), EPA Science Advisory Board (1400F), U.S. Environmental Protection Agency, 1200 Pennsylvania Avenue, NW., Washington, DC 20460; via telephone/voice mail: (202) 343-9994; fax: (202) 233-0643; or e-mail at: butterfield.fred@epa.gov. General information concerning the CASAC or the EPA SAB can be found on the EPA Web site at URL: <http://www.epa.gov/sab>.

SUPPLEMENTARY INFORMATION:

Background: The CASAC, which is comprised of seven members appointed by the EPA Administrator, was established under section 109(d)(2) of the Clean Air Act (CAA or Act) (42 U.S.C. 7409) as an independent scientific advisory committee, in part to provide advice, information and recommendations on the scientific and

technical aspects of issues related to air quality criteria and national ambient air quality standards (NAAQS) under sections 108 and 109 of the Act. The CASAC is a Federal advisory committee chartered under the Federal Advisory Committee Act (FACA), as amended, 5 U.S.C., App. The CASAC Ozone Review Panel, which consists of the members of the chartered CASAC supplemented by subject-matter-experts, complies with the provisions of FACA and all appropriate SAB Staff Office procedural policies.

Under section 108 of the CAA, the Agency is required to establish National Ambient Air Quality Standards (NAAQS) for each of six pollutants for which EPA has issued criteria, including ambient ozone (O₃). Section 109(d) of the Act subsequently requires periodic review and, if appropriate, revision of existing air quality criteria and NAAQS to reflect advances in scientific knowledge on the effects of the pollutant on public health and welfare. The Ozone Panel met in a public meeting in Durham, North Carolina on December 6-7, 2005, to conduct a peer review on EPA's 2nd draft *Air Quality Criteria for Ozone and Related Photochemical Oxidants* (August 2005). In a February 10, 2006, letter to the Administrator (EPA-CASAC-06-003), the CASAC indicated that it may need to provide additional advice related to chapter 8 of the AQCD which integrates human health effects and exposure. The CASAC's review of the 2nd draft is available on the SAB Web site at: http://www.epa.gov/sab/pdf/oasac_ozone_casac-06-003.pdf.

On March 21, 2006, EPA's National Center for Environmental Assessment, Research Triangle Park (NCEA–RTP), released the Final O₃ AQCD. Concomitantly, EPA's Office of Air Quality Planning and Standards (OAQPS) is completing work on a 2nd draft of *A Review of the National Ambient Air Quality Standards for Ozone: Policy Assessment of Scientific and Technical Information*. The latter document evaluates the policy implications of the scientific information in the Final O₃ AQCD, and the results of the quantitative risk/exposure analysis. CASAC will hold a conference call to provide additional advice to the Agency as it works to complete the 2nd Draft NAAQS for O₃.

Availability of Meeting Materials: The Final O₃ AQCD can be accessed via the Agency's NCEA Web site at: <http://cfpub.epa.gov/ncea/cfm/recordisplay.cfm?deid=149923>. Any questions concerning the Final O₃ AQCD should be directed to Dr. Mary Ross, NCEA-RTP, at phone: (919) 541-

5170, or e-mail: ross.mary@epa.gov. In addition, a copy of the draft agenda for this teleconference meeting will be posted on the SAB Web site at: <http://www.epa.gov/sab> (under the "Agendas" subheading) in advance of this Ozone Panel meeting. Other meeting materials, including the discussion questions for the Ozone Panel, will be posted on the SAB Web site at: <http://www.epa.gov/sab/panels/casacorpanel.html> prior to this teleconference.

Procedures for Providing Public Input:

Interested members of the public may submit relevant written or oral information for the CASAC Ozone Review Panel to consider during the advisory process. *Oral Statements:* In general, individuals or groups requesting an oral presentation at a teleconference meeting will be limited to five minutes per speaker, with no more than a total of 30 minutes for all speakers. Interested parties should contact Mr. Butterfield, DFO (preferably via e-mail) at the contact information noted above, no later than May 5, 2006, to be placed on the public speaker list for this meeting. *Written Statements:* Written statements should be received in the SAB Staff Office by May 5, 2006, so that the information may be made available to the Ozone Panel for their consideration prior to this meeting. Written statements should be supplied to the DFO in the following formats: One hard copy with original signature, and one electronic copy via e-mail (acceptable file format: Adobe Acrobat PDF, WordPerfect, MS Word, MS PowerPoint, or Rich Text files in IBM-PC/Windows 98/2000/XP format).

Accessibility: For information on access or services for individuals with disabilities, please contact Mr. Butterfield at the phone number or e-mail address noted above, preferably at least ten days prior to the meeting, to give EPA as much time as possible to process your request.

Dated: April 18, 2006.

Anthony Maciorowski,

Associate Director for Science, EPA Science Advisory Board Staff Office.

BILLING CODE 6560-50-P

FEDERAL COMMUNICATIONS COMMISSION

Notice of Public Information Collection(s) Being Submitted for Review to the Office of Management and Budget

April 14, 2006.

SUMMARY: The Federal Communications Commission, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following information collection(s), as required by the Paperwork Reduction Act (PRA) of 1995, Public Law 104-13. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid control number. Comments are requested concerning (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

DATES: Written Paperwork Reduction Act (PRA) comments should be submitted on or before May 24, 2006. If you anticipate that you will be submitting PRA comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all Paperwork Reduction Act (PRA) comments to Judith B. Herman, Federal Communications Commission, Room 1-C804, 445 12th Street, SW., DC 20554 or an e-mail to PRA@fcc.gov. If you would like to obtain or view a copy of this information collection, you may do so by visiting the FCC PRA Web page at: <http://www.fcc.gov/omd/pra>.

FOR FURTHER INFORMATION CONTACT: For additional information or copies of the information collection(s), contact Judith B. Herman at 202-418-0214 or via the Internet at Judith-B.Herman@fcc.gov.

SUPPLEMENTARY INFORMATION:

OMB Control No.: 3060-0718.

Title: Part 101, Governing the Terrestrial Microwave Fixed Radio Service.

Form No.: N/A.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit, not-for-profit institutions, and state, local or tribal government.

Number of Respondents: 10,000 respondents; 6,364 responses.

Estimated Time per Response: .25-3 hours.

Frequency of Response: On occasion and every 10 year reporting requirements, recordkeeping requirement and third party disclosure requirement.

Total Annual Burden: 36,585 hours.

Total Annual Cost: \$474,000.

Privacy Act Impact Assessment: N/A.

Needs and Uses: The Commission is submitting this information collection to OMB as a revision in order to obtain the full three-year clearance from them. Part 101 requires various information to be filed and maintained by the respondent to determine the technical, legal and other qualifications of applications to operate a station in the public and private operational fixed services. The information is also used to determine whether the public interest, convenience, and necessity are being served as required by 47 U.S.C. 309. The Commission staff also uses this information to ensure that applicants and licensee comply with ownership and transfer restrictions imposed by 47 U.S.C. 310. The Appendix attached to the OMB submission lists the rules in Part 101 that impose reporting, recordkeeping and third party disclosure requirements. The Commission revised this information collection to remove Part 101 rule sections that have no PRA implications. The total annual burden hours and costs have been modified accordingly.

Federal Communications Commission.

Marlene H. Dortch,

Secretary.
