

Federal Register). Under the existing EUP, plantings are permitted through January 31, 2009. Bayer CropScience is now proposing to amend the experimental program by conducting testing on 152 acres (out of 1,602 total acres) planted to Cry1Ab-containing cotton, with up to 0.03 pound of Cry1Ab protein and the genetic material necessary for its production in events T303-3 and T304-40; and to extend the amended program to run from January 1, 2009 until December 31, 2010. The Cry1Ab protein is effective in controlling lepidopteran larvae such as bollworm (*Helicoverpa zea*) and tobacco budworm (*Heliothis virescens*), which are common pests of cotton. The proposed program will be carried out in the States of Alabama, Arizona, Arkansas, California, Florida, Georgia, Louisiana, Mississippi, North Carolina, South Carolina, Tennessee, Texas, and in Puerto Rico. The proposed experimental program includes trials to evaluate insect and herbicide efficacy and agronomic performance. Also proposed is the production of sample material for regulatory studies and seed production for future experimental field trial plantings.

A copy of the application and any information submitted is available for public review in the docket established for this EUP application as described under **ADDRESSES**.

Following the review of the application and any comments and data received in response to this solicitation, EPA will decide whether to issue or deny the EUP request, and if issued, the conditions under which it is to be conducted. Any issuance of an EUP will be announced in the **Federal Register**.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this Action Apply to Me?

This action is directed to the public in general, and may be of interest to a wide range of stakeholders including environmental, human health, farm worker, and agricultural advocates; the chemical industry; pesticide users; and members of the public interested in the sale, distribution, or use of pesticides. Since others also may be interested, the Agency has not attempted to describe all the specific entities that may be affected by this action. If you have any questions regarding the applicability of this action to a particular entity, consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

B. What Should I Consider as I Prepare My Comments for EPA?

1. *Submitting CBI.* Do not submit this information to EPA through regulations.gov or e-mail. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD-ROM that you mail to EPA, mark the outside of the disk or CD-ROM as CBI and then identify electronically within the disk or CD-ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. *Tips for preparing your comments.* When submitting comments, remember to:

- i. Identify the document by docket ID number and other identifying information (subject heading, **Federal Register** date and page number).
- ii. Follow directions. The Agency may ask you to respond to specific questions or organize comments by referencing a

Code of Federal Regulations (CFR) part or section number.

iii. Explain why you agree or disagree; suggest alternatives and substitute language for your requested changes.

iv. Describe any assumptions and provide any technical information and/or data that you used.

v. If you estimate potential costs or burdens, explain how you arrived at your estimate in sufficient detail to allow for it to be reproduced.

vi. Provide specific examples to illustrate your concerns and suggest alternatives.

vii. Explain your views as clearly as possible, avoiding the use of profanity or personal threats.

viii. Make sure to submit your comments by the comment period deadline identified.

II. Background

A. What Action is the Agency Taking?

This notice opens a 60-day public comment period on the subject proposed registration review decisions. The Agency is proposing registration review decisions for the pesticide cases shown in the following Table.

TABLE 1.—REGISTRATION REVIEW DOCKETS—PROPOSED FINAL DECISIONS

Registration Review Case Name and Number	Pesticide Docket ID Number	Regulatory Contact name, Phone Number, E-mail Address
<i>Pseudomonas fluorescens</i> ; Case 6006	EPA-HQ-OPP-2007-0567	Susanne Cerrelli; (703) 308-8077; <i>cerrelli.susanne@epa.gov</i>
<i>Pseudomonas syringae</i> ; Case 6007	EPA-HQ-OPP-2007-0509	Susanne Cerrelli; (703) 308-8077; <i>cerrelli.susanne@epa.gov</i>

The dockets for registration review of these pesticide cases include earlier documents related to the registration review of the subject cases. For example, the review opened with the posting of a Summary Document, containing a Preliminary Work Plan (PWP), for public comment. A Final Work Plan (FWP) was posted to the docket following public comment on the initial docket. The documents in the initial docket described the Agency's rationales for not conducting new risk assessments for the registration review of *Pseudomonas fluorescens*, and *Pseudomonas syringae*.

These proposed registration review decisions now included in the dockets continue to be supported by those rationales included in documents in the initial dockets. Following public comment, the Agency will issue a final

registration review decision for each case.

The registration review program is being conducted under congressionally mandated time frames, and EPA recognizes the need both to make timely decisions and to involve the public. Section 3(g) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) as amended in 1996 required EPA to establish by regulation procedures for reviewing pesticide registrations, originally with a goal of reviewing each pesticide's registration every 15 years to ensure that a pesticide continues to meet the FIFRA standard for registration. The Agency's final rule to implement this program was issued in August 2006 and became effective in October 2006 and appears at 40 CFR 155.40. The Pesticide Registration Improvement Act of 2003 ("PRIA") was amended and extended in September

2007. FIFRA as amended by PRIA in 2007 requires EPA to complete registration review decisions by October 1, 2022 for all pesticides registered as of October 1, 2007.

The registration review final rule provides for a minimum 60-day public comment period for all proposed registration review decisions.

This comment period is intended to provide an opportunity for public input and a mechanism for initiating any necessary amendments to the proposed decision(s). All comments should be submitted using the methods in **ADDRESSES**, and must be received by EPA on or before the closing date. These comments will become part of the Agency Dockets for *Pseudomonas fluorescens*, and *Pseudomonas syringae*. Comments received after the close of the comment period will be marked "late." EPA is not required to consider these

late comments. The Agency will carefully consider all comments received by the closing date and will provide a Response to Comments Memorandum in the Dockets and www.regulations.gov. The final registration review decisions will explain the effect that any comments have had on the decisions.

Background on the registration review program is provided at: http://www.epa.gov/oppsrrd1/registration_review/. Quick links to earlier documents related to the registration review of this pesticide are provided at: http://www.epa.gov/oppsrrd1/registration_review/reg_review_status.htm. Additional information about biopesticides can be obtained by an alphabetical search of the Biopesticide Active Ingredient Fact Sheets on <http://www.epa.gov/opppppd1/biopesticides/ingredients/index.htm>

B. What is the Agency's Authority for Taking this Action?

FIFRA section 3(g) and 40 CFR 155.40 provide authority for this action.
