SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this Action Apply to Me?

You may be potentially affected by this action if you are an agricultural producer, food manufacturer, or pesticide manufacturer. Potentially affected entities may include, but are not limited to:

- Crop production (NAICS code 111).
- Animal production (NAICS code 112).
- Food manufacturing (NAICS code 311).
- Pesticide manufacturing (NAICS code 32532).

This listing is not intended to be exhaustive, but rather provides a guide for readers regarding entities likely to be affected by this action. Other types of entities not listed in this unit could also be affected. The North American Industrial Classification System (NAICS) codes have been provided to assist you and others in determining whether this action might apply to certain entities. If you have any questions regarding the applicability of this action to a particular entity, consult

the person listed under **FOR FURTHER INFORMATION CONTACT**.

B. How Can I Get Copies of this Document and Other Related Information?

1. *Docket.* EPA has established a docket for this action under docket identification (ID) number EPA-HQ-OPP-2009-0085. Publicly available docket materials are available either in the electronic docket at <http://www.regulations.gov>, or, if only available in hard copy, at the Office of Pesticide Programs (OPP) Regulatory Public Docket in Rm. S-4400, One Potomac Yard (South Bldg.), 2777 S. Crystal Dr., Arlington, VA. The hours of operation of this Docket Facility are from 8:30 a.m. to 4 p.m., Monday through Friday, excluding legal holidays. The Docket Facility telephone number is (703) 305-5805.

In accordance with section 3(c)(2) of FIFRA, a copy of the approved label, the list of data references, the data and other scientific information used to support registration, except for material specifically protected by section 10 of FIFRA, are also available for public inspection. Requests for data must be made in accordance with the provisions of the Freedom of Information Act and must be addressed to the Freedom of Information Office (A-101), 1200 Pennsylvania Ave., NW., Washington, DC 20460-0001. Such requests should: Identify the product name and registration number and specify the data or information desired.

A paper copy of the fact sheet, which provides more detail on this registration, may be obtained from the National Technical Information Service (NTIS), 5285 Port Royal Rd., Springfield, VA 22161.

2. *Electronic access.* You may access this **Federal Register** document electronically through the EPA Internet under the "**Federal Register**" listings at <http://www.epa.gov/fedrgstr>.

II. Did EPA Approve the Application?

The Agency approved the application after considering all required data on risks associated with the proposed use of oriental mustard seed; allyl isothiocyanate, and information on social, economic, and environmental benefits to be derived from use. Specifically, the Agency has considered the nature of the chemical and its pattern of use, application methods and rates, and level and extent of potential exposure. Based on these reviews, the Agency was able to make basic health and safety determinations which show that use of oriental mustard seed; allyl isothiocyanate when used in accordance

with widespread and commonly recognized practice, will not generally cause unreasonable adverse effects to the environment.

III. Approved Application

EPA issued a notice, published in the **Federal Register** of August 11, 2004 (690 FR 154 (FRL-7365-9), which announced that Nematrol, Inc., 15 Prince Andrew Ct., St. Catharine's, Ontario L2N 3Y2, Canada, had submitted an application to register the pesticide product, CA-1 for turf and ornamental, netmaticide/fungicide (EPA File Symbol 75618-R), containing 98% oriental mustard seed; allyl isothiocyanate. This product was not previously registered.

The application was approved on December 29, 2008, as CA-1 for turf and ornamentals (EPA Registration Number 75618-1) for the control nematode/fungicide. (L. Cole).

Pesticides; Availability of Updated Schedule for Registration Review

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA is announcing the availability of an updated schedule for the pesticide registration review program, the periodic review of all registered pesticides mandated by section 3(g) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA). The updated schedule provides the timetable for opening dockets for the next 4 years of the registration review program – fiscal year (FY) 2009 to FY 2012 – and includes information on the FY 2007 and FY 2008 registration review cases.

FOR FURTHER INFORMATION CONTACT: Kevin Costello, Special Review and Reregistration Division (7508P), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460-

II. Background

A. What Action is the Agency Taking?

EPA is issuing an updated schedule for the registration review program, the Agency’s periodic review of all registered pesticides mandated by section 3(g) of FIFRA. This updated schedule provides the timetable for opening dockets for the next 4 years of the program – FY 2009 to FY 2012.

The Pesticide Registration Improvement Act of 2003 as amended in 2007 (PRIA II) requires EPA to complete registration review decisions by October 1, 2022, for all pesticides registered as of October 1, 2007. To ensure meeting this requirement, EPA will open approximately 70 pesticide registration

review dockets annually beginning in FY 2009 and continuing through 2017, so that almost all pesticides registered at the start of the program will have dockets opened by 2017. Some biopesticide dockets will be opened in 2018 through 2020. The Agency anticipates that this scheduling will provide adequate lead times to complete registration review decisions for all currently registered pesticides by 2022. During the first several years of the program, EPA is developing a pipeline of pesticides under review so that it will have the capacity to make 70 or more decisions each year. EPA expects a total of about 710 pesticide cases comprising 1,136 pesticide active ingredients to undergo registration review by 2022.

Each pesticide’s place on the schedule is generally determined by its baseline date — the date of its last substantive review — with the oldest cases going first. The baseline date for a pesticide that was subject to reregistration is the date of the Reregistration Eligibility Decision (RED). The baseline date for pesticides that were not subject to reregistration is the registration date of the first product containing the active ingredient. Although, the schedule generally is constructed chronologically, some registration review cases are grouped in the schedule for greater efficiency. For example, pesticides that are chemically related or use-related (e.g., organophosphate and carbamate chemical classes, the coppers group, and the pyrethroids, pyrethrins, and syngergists group) generally will be reviewed during the same time frame.

As reflected in the updated schedule, EPA also intends to review the neonicotinoid pesticides as a group, and has moved several of these pesticides ahead in the schedule so that dockets for all will open no later than FY 2012. The neonicotinoids are a class of insecticides with a common mode of action that affects the central nervous system of insects, causing paralysis and death. European studies suggest that neonicotinic residues can accumulate in pollen and nectar of treated plants, and represent a potential risk to pollinators. The registration review docket for the neonicotinoid imidacloprid opened in December 2008, and the docket for nithiazine is scheduled to be opened in March 2009. To better ensure a “level playing field” for the neonicotinoid class as a whole, and to best take advantage of new research as it becomes available, the Agency has moved the docket openings for the remaining neonicotinoids on the registration review schedule (acetamiprid, clothianidin, dinotefuran, nitrpyrin,

thiacloprid, and thiamethoxam) to FY 2012.

EPA also announces that beginning in 2009, all new dockets for conventional pesticide cases entering registration review will have a 60–day public comment period. During the comment period on new registration review dockets, the Agency asks interested persons to review Summary Documents and other information in the dockets, and identify any additional information that the Agency should consider during the registration reviews of these pesticides. Based on over 2 years of experience in implementing the registration review program, EPA believes that 60 days will both allow the public to review these dockets and identify any additional information that the Agency should consider, and enable the Agency to open 70 new dockets annually and comply with the PRIA II requirement that each pesticide case be reevaluated within a 15–year timeframe. The comment period for antimicrobial, biopesticide, and microbial pesticide cases has previously been set at 60 days.

Background information on the program is provided at: http://www.epa.gov/oppsrrd1/registration_review/. The current schedule is available at: http://www.epa.gov/oppsrrd1/registration_review/schedule.htm. An explanation of the schedule is at: http://www.epa.gov/oppsrrd1/registration_review/explanation.htm. Information about the neonicotinoids and other groups of related pesticides beginning registration review is available at: http://www.epa.gov/oppsrrd1/registration_review/highlights.htm.

B. What is the Agency’s Authority for Taking this Action?

EPA is announcing this updated schedule for the registration review program as provided in 40 CFR 155.42(d) and 155.44 of the Procedural Regulations for Registration Review: Final Rule (<http://www.epa.gov/fedrgstr/EPA-PEST/2006/August/Day-09/p12904.htm>). The Agency may consider issues raised by the public or registrant when reviewing a posted schedule, to schedule a pesticide registration review, or to modify the schedule of a pesticide registration review as appropriate. This schedule will be updated at least once every year.
