DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Project Nos. 2692-032, 2603-012, and 2619-012]

Duke Power North Carolina; Notice of Availability of Draft Environmental Assessment

February 9, 2006.

In accordance with the National Environmental Policy Act of 1969, as amended, and Federal Energy Regulatory Commission (Commission) regulations (18 CFR Part 380), Commission staff reviewed the applications for licenses for the Nantahala, Franklin, and Mission projects (Nantahala West Projects) and prepared a draft combined environmental assessment (EA). The projects are located on the Nantahala, Little Tennessee, and Hiwassee rivers, respectively, in Macon and Clay counties, North Carolina.

In this draft EA, Commission staff analyze the probable environmental effects of implementing the projects and conclude that approval of the projects, with appropriate staff-recommended environmental measures, would not constitute a major Federal action significantly affecting the quality of the human environment.

Copies of the draft EA are available for review in Public Reference Room 2-A of the Commission's offices at 888 First Street, NE., Washington, DC. The draft EA also may be viewed on the Commission's Internet Web site (<http://www.ferc.gov>) using the "eLibrary" link. Additional information about the projects is available from the Commission's Office of External Affairs at (202) 502-6088, or on the Commission's Web site using the "eLibrary" link. For assistance, contact FERCOnlineSupport@ferc.gov or call

toll-free (866) 208-3676; for TTY, call (202) 502-8659.

Any comments on the draft EA should be filed within 45 days of the date of this notice and should be addressed to Magalie R. Salas, Secretary, Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426. Please reference the specific project and FERC Project No. on all comments. What Information Is EPA Particularly Interested In?

Pursuant to section 3506(c)(2)(A) of the PRA, EPA specifically solicits comments and information to enable it to:

- (i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;
- (ii) Evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- (iii) Enhance the quality, utility, and clarity of the information to be collected; and
- (iv) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses. In particular, EPA is requesting comments from very small businesses (those that employ less than 25) on examples of specific additional efforts that EPA could make to reduce the paperwork burden for very small businesses affected by this collection.

What Should I Consider When I Prepare My Comments for EPA?

You may find the following suggestions helpful for preparing your comments:

1. Explain your views as clearly as possible and provide specific examples.
2. Describe any assumptions that you used.

3. Provide copies of any technical information and/or data you used that support your views.

4. If you estimate potential burden or costs, explain how you arrived at the estimate that you provide.

5. Offer alternative ways to improve the collection activity.

6. Make sure to submit your comments by the deadline identified under **DATES**.

7. To ensure proper receipt by EPA, be sure to identify the docket ID number assigned to this action in the subject line on the first page of your response. You may also provide the name, date, and **Federal Register** citation.

What Information Collection Activity or ICR Does This Apply to?

Affected entities: Entities potentially affected by this action are business or other for-profit.

Title: Part B Permit Application, Permit Modifications, and Special Permits

ICR numbers: EPA ICR No. 1573.11, OMB Control No. 2050-0009.

ICR status: This ICR is currently scheduled to expire on July 31, 2006. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, and are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: Section 3005 of Subtitle C of RCRA requires treatment, storage or disposal facilities (TSDFs) to obtain a permit. To obtain the permit, the TSDFs must submit an application describing the facility's operation. There are two parts to the RCRA permit application—Part A and Part B. Part A defines the processes to be used for treatment, storage, and disposal of hazardous wastes; the design capacity of such processes; and the specific hazardous wastes to be handled at the facility. Part B requires detailed site-specific information such as geologic, hydrologic, and engineering data. In the event that permit modifications are proposed by the applicant or EPA, modifications must conform to the requirements under Sections 3004 and 3005.

This ICR provides a comprehensive discussion of the requirements for

owner/operators of TSDFs submitting applications for a Part B permit or permit modification. The information collections contained in this ICR are divided into three sections: demonstrations and exemptions from requirements (40 CFR part 264), contents of the part B application (40 CFR part 270), and permit modifications and special permits (40 CFR part 270).

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 165 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

The ICR provides a detailed explanation of the Agency's estimate, which is only briefly summarized here:

Estimated total number of potential respondents: 74.

Frequency of response: On occasion.

Estimated total average number of responses for each respondent: 74.

Estimated total annual burden hours: 12,209.

Estimated total annual costs: \$3,251,920. This includes an estimated burden cost of \$783,682 and an estimated cost of \$2,468,238 for capital investment and maintenance and operational costs.

What Is the Next Step in the Process for This ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. At that time, EPA will issue another **Federal Register** notice pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the technical person listed under **FOR FURTHER INFORMATION CONTACT**.

Dated: January 31, 2006.

Director, Office of Solid Waste.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-8033-8]

Proposed Agreement for Recovery of Past Costs and Covenant Not To Sue for the Grand Junction Anti-Freeze Site, Grand Junction, CO

AGENCY: Environmental Protection Agency.

ACTION: Notice of proposed agreement; request for public comment.

SUMMARY: In accordance with the requirements of section 122(h)(1) of the Comprehensive Environmental Response Compensation, and Liability Act of 1980, as amended ("CERCLA"), 42 U.S.C. 9622(h)(1), notice is hereby given of the proposed administrative settlement under section 122(h) of CERCLA, 42 U.S.C. 9622(h) between the U.S. Environmental Protection Agency ("EPA") and Chemical Specialties Incorporated (Chemical Specialties) (collectively, "Settling Parties"). Chemical Specialties consents to and will not contest EPA's authority to enter into this Agreement or to implement or enforce its terms. By entering into this Agreement, the mutual objective of the Settling Parties is to avoid difficult and prolonged litigation by Chemical Specialties making a monetary payment to address its alleged civil liability for the Site.

In return, the Chemical Specialties receives a Covenant Not to Sue by the EPA. The EPA has incurred response costs, starting in January 2003 and extending through June 2004, totaling approximately \$239,636.70, and additional response costs from June 2004 to the present. EPA alleges that Chemical Specialties is a responsible party pursuant to Section 107(a) of CERCLA, 42 U.S.C. 9607(a), and is jointly and severally liable for response costs incurred and to be incurred at or in connection with the Site. EPA has reviewed the Financial Information submitted by the Chemical Specialties to determine whether the Chemical Specialties is financially able to pay response costs incurred and to be incurred at the Site. Based upon this Financial Information, and its review completed July 13, 2005, EPA has determined that Chemical Specialties has limited financial ability to pay for response costs incurred and to be

incurred at and in connection with the Site.

Chemical Specialties has agreed to pay to the EPA Hazardous Substance Superfund \$22,000.00, plus an additional amount for interest. The Settling Parties recognize that this Agreement has been negotiated in good faith and that this Agreement is entered into without the admission or adjudication of any issue of fact or law.

DATES: Comments must be submitted on or before March 20, 2006. For thirty (30) days following the date of publication of this notice, the Agency will receive written comments relating to the agreement. The Agency will consider all comments received and may modify or withdraw its consent to the agreement if comments received disclose facts or considerations that indicate that the agreement is inappropriate, improper, or inadequate.

ADDRESSES: The Agency's response to any comments, the proposed agreement and additional background information relating to the agreement are available for public inspection at the EPA Superfund Record Center, 999 18th Street, Suite 300, 5th Floor, in Denver, Colorado. Comments and requests for a copy of the proposed agreement should be addressed to Michael Rudy, Enforcement Specialist, Environmental Protection Agency—Region 8, Mail Code 8ENF-RC, 999 18th Street, Suite 300, Denver, Colorado 80202-2466, and should reference the Grand Junction Anti-Freeze Site, Grand Junction, Colorado.
