

Finally, EPA will also use the questionnaire to collect data to evaluate potential impacts to small businesses that might occur due to alternative produced water management options. To minimize burden, the only information requested at the ultimate parent company level, if different from the level at which detailed financial information is provided, is employment and revenue data. EPA solicits comment on alternative survey questions to collect data for EPA's small business analyses.

The ICR provides a detailed explanation of the Agency's estimate, which is only briefly summarized here:

Estimated total number of potential respondents: 400.

Frequency of response: One-time.

Estimated total average number of responses for each respondent: One.

Estimated total annual burden hours: 65,100 hours.

Estimated total annual costs: \$2,839,000. This includes an estimated burden cost of \$2,815,000 and an estimated cost of \$24,000 for operational costs (photocopying and postage).

What is the Next Step in the Process for this ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. At that time, EPA will issue another **Federal Register** notice pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the technical person listed under **FOR FURTHER INFORMATION CONTACT**.
