Pyraclostrobin; Objections to Pesticide Tolerances; Notice of Availability**AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Notice.

SUMMARY: This notice announces the availability of objections filed with respect to the establishment and increase of various pyraclostrobin tolerances under section 408 of the Federal Food, Drug, and Cosmetic Act (FFDCA). The objections were filed on June 5, 2006 by the Natural Resources Defense Council (NRDC). NRDC's objections assert that EPA unlawfully removed the additional 10X safety factor for the protection of infants and

children. Additionally NRDC claims that EPA's action was arbitrary and capricious for failure to provide an adequate explanation for its decision on the children's safety factor, and because EPA never received information EPA deemed necessary to its review of the pesticide. This Notice seeks comment on the NRDC objections.
