Notice will also be posted on the Region 10 Web site and will be mailed to all interested persons receiving notice of availability of the draft permit.

Administrative Record

The complete administrative record for the draft permit is available for public review at the EPA Region 10 office at the address listed above.

Other Legal Requirements

A. Endangered Species Act

EPA has determined that issuance of the General Permits is not likely to adversely affect threatened or endangered salmonids, designated

critical habitat, or essential fish habitat. Issuance of the General Permits to cold water aquaculture facilities and fish processors is not likely to adversely affect threatened or endangered snail species or their designated critical habitat, but issuance of the Wasteload Allocation Permit to four warm water facilities in Idaho is likely to affect the three listed snail species because of the increase in temperature of the receiving streams in the immediate vicinity of these facilities. EPA has determined that issuance of the General Permits will have no effect on any terrestrial threatened or endangered species or their designated critical habitat.

B. Executive Order 12866

EPA has determined that this general permit is not a "significant regulatory action" under the terms of Executive Order 12866 and is therefore not subject to OMB review.

C. Paperwork Reduction Act

The information collection requirements of this permit were previously approved by the Office of Management and Budget (OMB) under the provisions of the Paperwork Reduction Act, 44 U.S.C. 3501 *et seq.*, and assigned OMB control numbers 2040-0086 (NPDES permit application) and 2040-0004 (discharge monitoring reports).

D. Regulatory Flexibility Act

The Regulatory Flexibility Act (RFA), 5 U.S.C. 601 *et seq.*, requires that EPA prepare a regulatory flexibility analysis for rules subject to the requirements of 5 U.S.C. 553(b) that have a significant impact on a substantial number of small entities. However, general NPDES permits are not "rules" subject to the requirements of 5 U.S.C. 553(b) and are therefore not subject to the RFA.

E. Unfunded Mandates Reform Act

Section 201 of the Unfunded Mandates Reform Act (UMRA), Public Law 104-4, generally requires Federal agencies to assess the effects of their "regulatory actions" (defined to be the same as "rules" subject to the RFA) on tribal, state, and local governments and the private sector. However, general NPDES permits are not "rules" subject to the requirements of 5 U.S.C. 553(b) and are therefore not subject to the RFA or the UMRA.

Dated: June 12, 2006.

Director, Office of Water & Watersheds, Region 10.
