To: 5/13/2009 12:00 PM

2. Attachment 1, Performance Work Statement, has been replaced in its entirety. Please see the attached. All changes are in **BOLD**.

PERFORMANCE WORK STATEMENT

Wall Panel Recovering in C111

BACKGROUND and PURPOSE:

The purpose of this procurement is to provide services to re-cover the existing operable wall partitions in conference room C111 located at the EPA's main campus located at 109 T.W. Alexander Drive, Research Triangle Park, NC.

Currently, the EPA has twenty (20) Modernfold 931 operable single panel wall partitions and two (2) anchor walls. **The face of the panels, under the existing fabric, is steel.** The EPA's requirement is to have the existing fabric removed and the partitions re-covered with new vinyl wall fabric.

SPECIFIC REQUIREMENTS:

1. Period of Performance: To be determined.
2. Description of Existing Wall Partitions:
 - a. Twenty (20) panels are 122 $\frac{3}{4}$ " H x 46 $\frac{3}{4}$ " W . **Each panel has two (2) faces (front and back of panel) for a total of forty (40) faces.**
 - b. Two (2) anchor wall sections are 122 $\frac{3}{4}$ " H x 53 $\frac{3}{4}$ " W, with an additional 122 $\frac{3}{4}$ " H x 8 $\frac{3}{4}$ " W cap piece.
3. All existing fabric shall be pulled off and replaced at the astragals on both panels.

NOTE: The edge astragals shall be removed so the vinyl can wrap around the edges of the panels.

4. The contractor shall re-cover the panels in 2.a and 2.b with vinyl. **The contractor shall submit color samples of the vinyl to the Project Officer for final approval prior to installation.**
5. The contractor shall dispose of all existing fabric.
6. All work shall be accomplished after 5:00 pm during the week, or on weekends so as not to affect the EPA's conference schedule.
