

Questions on ERLN RFQ-DC-09-00337

Q1: We have a network of laboratories within our company, many of which carry the certifications and have the capabilities to support this type of work. Can we submit one application for this RFQ that covers all of our labs, or do we have to submit a separate application for each facility?

A1: The company needs to submit an application for each individual laboratory. Each laboratory must enter its information into the Laboratory Compendium.
