This memorandum captures the information sent in an e-mail, dated 2/8/07 from Raoul Scott to the recipients shown above.

The Blanket Purchase Agreements (BPAs) for the Expanding the Industry Base (ETIB) Initiative are now in place. The Office of Acquisition Management (OAM) has established 13 BPAs covering 26 areas of technical expertise. These are all 5-year agreements ending in October of 2011 with a funding ceiling of \$5 million per BPA. Attached please find a listing of the ETIB firms and points of contact. The full BPA for each firm and a synopsis of the ETIB process can be found by going to the following website:

[www.epa.gov/etib]

As you may recall, the ETIB initiative was undertaken to help address the gap between the existing capacity of contractor support currently available through our Emergency Response contracts and the potential level of support needed during a large (or series of

large) emergency response event(s). Please note, the ETIB BPAs are intended to supplement EPA's extramural emergency response capabilities.

Personnel who are authorized to place call orders under this BPA are limited to EPA personnel with contracting officer warrants, warranted EPA On-Scene Coordinators, and any purchase cardholder up to the limits of their individual/monthly transaction allowance.
