

REGION 1
EMERGENCY AND RAPID RESPONSE SERVICES (ERRS) III
PR-HQ-07-12299
Questions and Answers as of November 6, 2007

1. Is there an incumbent? If so, who is it?

Yes. The incumbent is Shaw Environmental Inc.

2. If there is an incumbent, are you currently satisfied with the work that it is providing?

This office does not administer the current contract so a comment will not be provided.

3. Is the work required on these contracts strictly clean-up services, or will the contractor also provide the response and site assessment activities related to the release or threat of release of oil, petroleum products, hazardous substances? Will the contractor provide vulnerability assessments and emergency management services?

Please see the draft Statement of Work (SOW) that is posted on the website for tasks that will be performed under this contract.

4. How many personnel will be needed on this contract? And what types of personnel are needed?

This information will be posted in the Request for Proposal (RFP).

5. Will there be a pre-proposal meeting? If so, when will it be held?

No pre-proposal meeting is planned or scheduled at this time.

6. I am inquiring if there is or will be available a list of interested vendors for this solicitation?

There is currently a list of interested vendors for this solicitation on the EPA website. An updated list will be posted as more interested vendors reply.

7. In your pre-solicitation notice for the ERRS Region 1 solicitation, you indicated the RFP would be available in November. Can you please provide any additional specificity as to timing in November, i.e., earlier or later in the month...or whether you think it may slip into December?

As mentioned in the pre-solicitation notice, the RFP is anticipated to be available in November. A more specific timeframe cannot be provided but if there is a change in the November date, due to circumstances beyond our control, an amendment to the notice will be posted. Please continue to monitor the website for any updates.
