

# **Sustainable Futures P2 Partnerships**

**Jim Santory**

**Consortium for Environmental Risk Management**

**[jsantory@cermonline.com](mailto:jsantory@cermonline.com)**

# What Are Sustainable Futures P2 Partnerships?

- ✚ **Technical assistance in your area of chemistry for Sustainable Futures (SF) participants who have taken 3-day hands-on training**
- ✚ **Hands-on; one-on-one instruction and technical assistance**
- ✚ **No cost to companies, assistance provided through EPA grants**
- ✚ **Ensure safety of Confidential Business Information**

# **Sustainable Futures**

## **P2 Partnerships: Purpose**

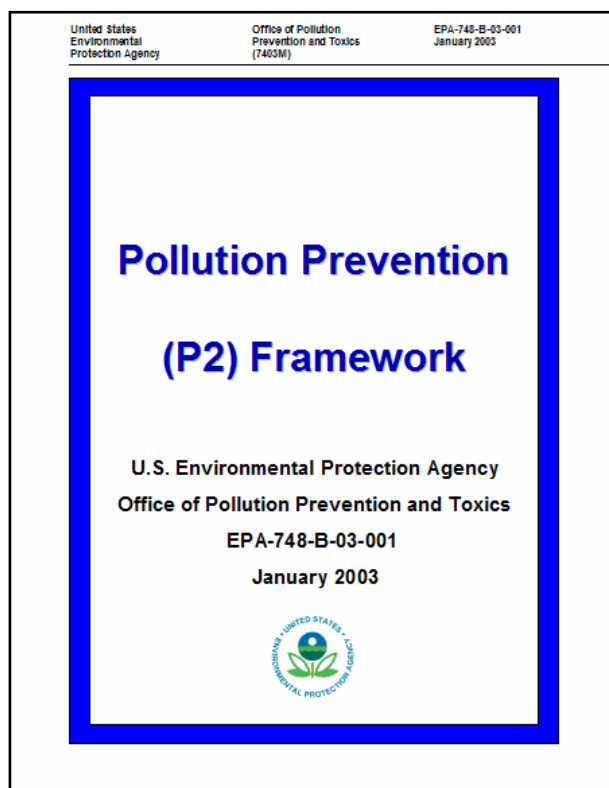

- ✚ Help with the learning curve**
- ✚ Provide additional support in use and interpretation of SF / P2 Framework methods**
- ✚ Help insure successful participation in Sustainable Futures**
- ✚ Hands-on; one-on-one instruction and technical assistance**

# How Do the SF P2 Partnerships Work?

- ✚ **Grantees enter into confidentiality agreement with company**
- ✚ **Companies submit a chemical to be evaluated using the P2 Framework**
- ✚ **Chemicals can be materials that the company is:**
  - **Considering as a PMN**
  - **Another test chemical of interest**
- ✚ **Grantees employ EPA's TSCA CBI handling procedures to ensure confidentiality**

# Sustainable Futures P2 Partnerships: Other Opportunities

- ✚ Seminars on the P2 Framework and/or PBT Profiler for your company

**PBT Profiler**  
A Component of OPPT's  
P2 Framework  
*Assessing Chemicals in  
the Absence of Data*

[www.pbtprofiler.net](http://www.pbtprofiler.net)

- Case studies in P2 using the PBT Profiler to look at potential PBT characteristics of chemical inventory.
