

**COAL COMBUSTION  
PRODUCTS PARTNERSHIP**

## REGISTRATION FORM

The Coal Combustion Products Partnership (C<sup>2</sup>P<sup>2</sup>) program is a cooperative effort between United States Environmental Protection Agency, American Coal Ash Association, Utility Solid Waste Activities Group, Federal Highway Administration, United States Department of Agriculture-Agricultural Research Service, Electric Power Research Institute, and United States Department of Energy to promote the beneficial use of Coal Combustion Products (CCPs) and the environmental benefits that result from their use. The C<sup>2</sup>P<sup>2</sup> develops resources such as technical assistance publications and workshops, and maintains a helpful Web site. Organizations can participate in C<sup>2</sup>P<sup>2</sup> as Partners by committing to increase CCP use, marketing CCPs, or working with organizations to promote greater use of CCPs. Partners are eligible for awards recognizing their activities, particularly documented increases in CCP use.
