We Want to Be a Partner in EPA's
National Partnership for Environmental Priorities

IDENTIFYING INFORMATION

Name of Organization: The Boeing Company
Principal Contact: Joel Nelson
Authorizing Official: Rosaura Corral-Perez
Address: 9566 Railroad Dr
Phone/Fax: (915) 834-1456 / (915) 834-1368
EPA RCRA ID Number: 79924RCKWL9566R

Facility Name: Boeing El Paso, TX
Title: Environmental Engineer
Title: Site Leader
City/State/Zip: El Paso, TX 79924
Email: joel.m.nelson@boeing.com
Date: October 20, 2008

PARTNER AGREEMENT

Our organization is choosing to become a partner in EPA's National Partnership for Environmental Priorities. Our goal is to reduce the quantity of one or more Priority Chemicals currently found in our products, processes, or releases using techniques such as source reduction, recycling, or other materials management practices. In this enrollment application, we identify one or more voluntary goals that we believe we can achieve as partners in this program. The voluntary goal(s) provided below is an initial estimate and may change over time. We may revise our goal(s) or withdraw from the program at any time. If/when we choose to revise our goals or withdraw from the program, we will notify EPA.

GOAL #1. Chemical Name: Lead **CASRN:** 7439-92-1

Narrative description of proposed project:

The Boeing Facility in El Paso, TX already recycles approximately 1000 lbs of lead solder dross per year. We have and will continue researching lead-free solder and with customer approval will begin using lead-free solder in some applications.

How we will measure success:

We will track the amount of solder the lead-free solder replaces.

1a. Our voluntary **source reduction** goal for Chemical #1 is to reduce the amount of this chemical generated/used from a baseline amount of 1000 pounds in October, 2008 (month/year) to a reduced amount of 750 pounds generated/used by October, 2012 (month/year).

1b. To accomplish this goal, we will use the following source reduction options (check all that apply):

- | | | | |
|-------------------------------------|--|-------------------------------------|---|
| <input type="checkbox"/> | Equipment or technology modifications. | <input type="checkbox"/> | Process or procedure modifications. |
| <input checked="" type="checkbox"/> | Reformulation or redesign of products. | <input checked="" type="checkbox"/> | Substitution of less toxic raw materials. |
| <input type="checkbox"/> | Improvements in inventory control. | <input type="checkbox"/> | Improvements in maintenance/housekeeping practices. |
| <input type="checkbox"/> | Other (describe): _____ | | |

2a. In addition to, or in lieu of using source reduction methods, our voluntary **recycling or recovery** goal for Chemical #1 is to increase the recycled or recovered quantity of this chemical from a baseline amount of _____ pounds in _____ (month/year) to an increased quantity of _____ pounds by _____ (month/year).

2b. To accomplish this recycling or recovery goal, we will use the following options (check all that apply):

- | | |
|--------------------------|---|
| <input type="checkbox"/> | Direct use/reuse in a process to make a product. |
| <input type="checkbox"/> | Processing the waste to recover or regenerate a usable product. |
| <input type="checkbox"/> | Using/reusing waste as a substitute for a commercial product. |
| <input type="checkbox"/> | Other (describe): _____ |

3. We have a Quality Assurance/Quality Control Plan for data (check which applies). Yes No

Please use supplemental sheets for additional goals.
