Session 6A: Funding monitoring programs
February 11, 2009

Minnesota's Clean Water Legacy

Shannon Lotthammer, Minnesota Pollution Control Agency

In 2006, the Minnesota Legislature passed the state Clean Water Legacy Act (CWLA) to provide a policy framework and resources to state and local governments to accelerate efforts to monitor, assess, and restore impaired waters, and to protect unimpaired waters. In 2008, the citizens of Minnesota passed a constitutional amendment to increase the state sales tax by 3/8 percent to fund clean water efforts, among other priorities. Shannon Lotthammer will provide a brief overview of the state CWLA and the state constitutional amendment, and highlight some of the work being accomplished with CWLA funding.
