Subject: CCDFGF and SUMMARIZE Verification and Testing

Dear Ms. White:

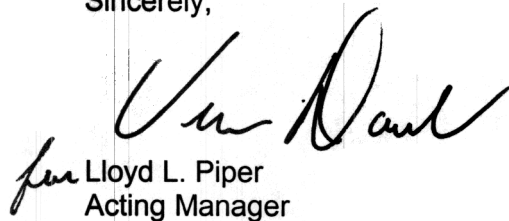

A Compliance Recertification Application (CRA) completeness comment regarding how CCDFGF and SUMMARIZE computer codes are checked, verified, and tested for capturing the correct code CDB data streams was submitted by EPA to the Department of Energy (DOE) during a technical exchange on August 9, 2004. DOE's original response to this comment was included in the 4th Response Submittal dated September 24, 2004.

Enclosed is an addendum to this response. A summary of the response is included as Enclosure 1. The Sandia National Laboratories (SNL) report "Verification of the SUMMARIZE Interface in the CRA-2004", is provided on compact disc, and included as Enclosure 2.

According to our records, this transmittal completes the response to all EPA requests for additional information regarding the WIPP 2004 Compliance Recertification Application. DOE anticipates your subsequent completeness determination.

If you have any questions, please contact Russ Patterson of my staff at 505-234-7457.

Sincerely,

for Lloyd L. Piper
Acting Manager
