

# Former Electro-Therm Inc. Facility

Rte. 404  
West Denton, MD 21629  
Congressional District  
EPA ID #: MDD043375757  
Last Updated: 12/23/2008

## Current Progress at the Site

---

---

Corrective Action activities at the former Electro-Therm facility (Site), now owned by FIL [US] Inc. (FIL), are being conducted under the provisions of Maryland Department of the Environment (MDE) Consent Order No. CO-88-094 (CO). A pump and treat system was installed in 1988 for remediation of Volatile Organic Compounds (VOCs), primarily 1,1,1-trichloroethane and trichloroethene, present in shallow groundwater. A site meeting between FIL, MDE, and the United States Environmental Protection Agency (EPA) Region III was held on September 10, 2008, to discuss remedial endpoint strategies. FIL is expected to submit a work plan addressing the Site's remaining data gaps sometime in early 2009.

## Site Description

---

---

The former Electro-Therm facility is a 13.7 acre industrial property situated between Route 404 and Meetinghouse Road in Denton, Maryland. Historical land use in the period prior to 1988 included the manufacture of electronic devices by Electro-Therm Inc.

## Site Responsibility

---

---

RCRA Corrective Action at this facility is being conducted under the direction of the MDE Controlled Hazardous Substance (CHS) Enforcement Division, in cooperation with U.S. E.P.A. Region III.

## Institutional Controls

---

---

To be determined.
