Current Progress at the Site

This facility is one of EPA Region III's high priority RCRA corrective action sites. Pennsylvania Department of Environmental Protection (PADEP) completed a site evaluation of this Facility in February 2002. EPA has reviewed this information to determine if Environmental Indicators have been met. Soil samples were collected at the facility in July and August of 2004 and were analyzed for volatile organic compounds, semi-volatile organic compounds, and metals. EPA has reviewed the analytical results of the samples and has determined that the Current Human Exposures Under Control Environmental Indicator has been met. On September 27, 2007, EPA has determined that the Migration of Contaminated Groundwater Under Control Environmental Indicator has been met. On September 25, 2009, EPA issued the Final Decision of RCRA Corrective Action Complete without Controls to the facility.
