

Advanced Environmental Technical Services, L.L.C. (Formerly: Chemical Waste Management)

**Advanced Environmental Technical Services, L.L.C.
1050 West 11th Ave.
Coatesville, PA 19320
Congressional District 16
EPA ID #: PAD064375470
Final Update**

Current Progress at the Site

On September 30, 1996, EPA determined that Advanced Environmental Technical Services, L.L.C. has fulfilled all the conditions of the Resource Conservation and Recovery Act (RCRA) and the Hazardous and Solid Waste Amendments (HSWA) Permit and there is no further investigation or cleanup required at the site. A RCRA Corrective Action Permit was issued to the facility on December 30, 1988, and by 1996, no further corrective action was required on the site. The human exposures and the release to groundwater are controlled. The Pennsylvania Department of Environmental Protection (PADEP) operational permit for the Advanced Environmental Technical Services, Coatesville facility remained in effect until January 17, 1999. Since operations at the facility were curtailed in 1996, the facility must notify and receive a new operational permit from PADEP if Advanced Environmental Technical Services expects to restart operations.

Site Description

The Advanced Environmental Technical Services, L.L.C. (Chemical Waste Management of Pennsylvania, Inc.), located at 1050 West 11th Avenue, Coatesville, Pennsylvania, was a treatment and storage facility for hazardous and residual waste situated on 11 acres. The facility functioned as an intermediate transfer station for consolidating and treating wastes prior to off-site disposal.

No disposal activities were conducted at the site. The operations at the facility were curtailed in 1996.

Site Responsibility

RCRA Corrective Action activities at this facility are being conducted under the direction of EPA Region 3 with assistance from the State. The EPA project file contains comprehensive information and clean-up at this facility.

Contaminants

There are currently no human or environmental threats due to contamination at the facility.

Institutional Controls

There are no institutional controls at this time.
