Final Update

Current Progress at the Site

The Former Airco Welding Products Facility was operational from 1976 through 1982-1983 as a manufacturer of gas welding products. Airco's operations included forging, machining, and drilling of copper material for the fabrication of gas welding and cutting torch heads.

Airco Welding Products was purchased and moved operations to Portsmouth, Virginia in 1983; however they continued to lease the property for a period of 1 to 2 years after vacating the Facility. The property has subsequently been occupied by Standard Motor Parts (EIS Brake Parts) from 1995 until 1996, Camrett Logistics from 1996 until 2006, and Mid-Atlantic, Inc. from October 2006. Mid-Atlantic occupied the Facility as of February 2009. The property was sold to PAW Industrial Properties, LLC in 2003.

A Final RCRA Site Visit Report was issued on February 18, 2009 for the Facility. A Statement of Basis (SOB) was noticed on June 17, 2009. The EPA issued its Final Decision regarding the Facility on July 28, 2009 stating that Corrective Action was Complete without Controls.
