

City of Chesapeake

**930 Hollowell Lane
(Hollowell Lane Yard)
Chesapeake, VA 23320
EPA ID#: VAR000005058
Final Update**

Current Progress at the Site

The Facility is a storage yard used by the City of Chesapeake for heavy equipment, soil from excavations, reinforced concrete pipe, and solid waste soil and woody debris in roll-off containers.

No hazardous waste is currently generated or stored at the Facility. In addition, no maintenance of equipment occurs at the Facility. Four areas of the Facility have been remediated to remove historic disposal of hazardous and non-hazardous waste, construction and demolition debris, tires, asbestos containing material and paint residue. Wastes and surrounding soils were excavated and disposed of off-site. A 2002 Consent Order required cleanup and closure of the areas. Clean Closure for soil and groundwater was approved by VDEQ in November 2005.

A Final RCRA Site Visit Report was issued on December 24, 2008 for the Facility. A Statement of Basis (SOB) was noticed in The Virginian-Pilot on May 5, 2009. The EPA issued its Final Decision regarding the Facility on June 16, 2009 stating that Corrective Action was Complete without Controls.

Site Description

The Facility is located on a 3.75-acre lot in the Greenbrier section of the City of Chesapeake. The site is located in a developed commercial/industrial region. The Facility is bounded by the City of Chesapeake Traffic Engineering Field Office and Southeastern Public Service Authority Chesapeake Transfer Station to the north, railroad spurs to the west, and a radio tower and City of Chesapeake Mosquito Control facility to the east. The sites surface is a combination of vegetation and bare soil.

Site Responsibility

RCRA Corrective Action activities are being conducted under the direction of the U.S. EPA with assistance from Virginia's Department of Environmental Quality (VDEQ).

Institutional Controls

None required.
