SUMMARY & DESCRIPTION OF VIOLATION: EPA is providing notice of a proposed Notice of Violation Proposed Administrative Order with civil penalty and opportunity to request a hearing for alleged violations of the Safe Drinking Water Act (Act). EPA is also providing notice of opportunity to comment on the proposed administrative order.

Part C of the Safe Drinking Water Act (SDWA) specifically mandates regulation of the underground injection of fluids through wells to ensure that the quality of underground sources of drinking water is protected. Section 1422 of the SDWA requires the EPA to administer UIC programs in states that do not have approved UIC programs. New York has not acquired primacy over the UIC program pursuant to 40 C.F.R. Part 147 and, therefore, the EPA administers the program in New York.

The Complaint addresses a well that is owned/operated by the Division of Mental Health,

In the Matter of U.S. Virgin Islands Department of Health Division of Mental
Docket No. SDWA- SDWA-02-2007-8902

Alcoholism and Drug Dependency Services, Virgin Islands Department of Health
(Respondent).

Respondent, without authorization by rule or permit, operated a large capacity septic system. Respondent therefore failed to comply with 40 C.F.R. §144.11.

The fluids were injected into or above a local aquifer, which is an underground source of drinking water (USDW), as defined in 40 C.F.R. §144.3 and §146.3. Respondent's actions may have caused a violation of primary drinking water regulations or may otherwise adversely affect the health of persons and, therefore, Respondent is in violation of 40 C.F.R. §144.12.

RELIEF SOUGHT: Respondent shall be ordered to cease injection and submit a complete permit application or approvable closure plan. If a closure plan is submitted, Respondent shall close the well accordingly.
