**PUBLIC COMMENT PERIOD:** 30 days from publication date.

**SUMMARY & DESCRIPTION OF VIOLATION:** EPA is providing notice of a proposed administrative order and penalty assessment for alleged violations of the Safe Drinking Water Act (Act). EPA is also providing notice of opportunity to comment on the proposed administrative order and penalty assessment.

Part C of the Safe Drinking Water Act (SDWA) specifically mandates regulation of the underground injection of fluids through wells to ensure that the quality of underground sources of drinking water is protected. Section 1422 of the SDWA requires the EPA to administer UIC programs in states that do not have approved UIC programs. The U.S. Virgin Islands have not acquired primacy over the UIC program pursuant to 40 C.F.R. Part 147 and, therefore, the EPA administers the program in the U.S. Virgin Islands.

The Complaint addresses a well that is owned/operated by William E. Smith, d.b.a. Miss Lucy's Restaurant (Respondent).

Respondent, without authorization by rule or permit, injected waste into a Class V injection well. Respondent therefore failed to comply with 40 C.F.R. §144.11.

The fluids were injected into or above a local aquifer, which is an underground source of drinking water (USDW), as defined in 40 C.F.R. §144.3 and §146.3.

**RELIEF SOUGHT:** Respondent shall be ordered to cease injection and submit a complete permit application or approvable closure plan. If a closure plan is submitted, Respondent shall close the well accordingly. In addition EPA is proposing a penalty of \$6,500.00.
